The KRAS Mutation assay is a qualitative Real-Time PCR based mutant enrichment assay with selective blocking of KRAS wild-type amplification. The amplification products are purified and subject to sequencing to confirm the presence of the KRAS mutation. The assay has a sensitivity of 1-10% mutant population

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1 888-877-1655 (your boss will never notice... maybe) or 1-503-200-1300 (long distance to Portland, Oregon) and it should appear here with in a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Privacy Policy: We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

REQUEST FOR APPLICATION FEE WAIVER

Dear Sir/ Madam,

Lai Tung Lam is a Vietnamese student of Anglo-Chinese School (Independent) in Singapore. He is applying for admission to University of Chicago in 2012.

As his parents' monthly income in Vietnam is only VND 16,000,000 (equivalent to approximately US$ 800 per month or US$9600 per year), payment of the application fee poses significant financial hardship. Therefore, I kindly request that you could consider waiving his application fee.

Many thanks.

Yours sincerely

Mr Mohd Fazli Sugang
School Counsellor

Directions

Wash the chicken and let dry, then season both sides with salt and pepper.

In a food processor, combine the garlic, rosemary, oregano, cayenne, and breadcrumbs. Pulse for a couple minutes until the garlic is minced. You can easily make about a cup of breadcrumbs ahead of time using 1/3 of a stale baguette that is pulsed in the food processor for about 1 minute.

Preheat the oven to 350 degrees. Place the breadcrumb mixture in a shallow bowl then drench the chicken in it, pressing down on it so that they are fully coated. Heat the oil in a large ovenproof skillet and cook chicken until brown on both sides, then transfer the skillet to the oven and cook for another 20-25 minutes until juices run clear.

His mother replied, "He came from heaven, Johnny."
Johnny says, "WOW! I can see why they threw him out!"

WARNING! ENTERING THE PUN ZONE!

The summer band class I taught was just getting underway when a large insect flew into the room. The sixth graders, eager to play their shiny new instruments, tried to ignore the buzzing intruder, but eventually one student could stand it no longer. He rolled up his music book and swatted the insect and then for good measure stomped on it to ensure its fate.
"Is it a bee?" another student asked.
"Nope! Bee flat."

Once my divorce was final, I went to the local Department of Motor Vehicles and asked to have my maiden name reinstated on my driver's license.
"Will there be any change of address?" the clerk inquired.
"No," I replied.
"Oh, good," she said, clearly delighted. "You got the house."

TODAY IN TRIVIA **How old was Franz Schubert when he died?** At the age of 31, Schubert died in Vienna, on 19 November 1828.
–**Did Schubert produce many works in his short lifetime?** Indeed he did. He was extremely prolific with over 600 secular vocal works (mainly Lieder), seven complete symphonies, sacred music, operas, incidental music and a large body of chamber and piano music to his credit.

February 13 2012

Miguel Torres
2300 W Barnard Ave
Milwaukee WI 53221

Dear Bro. Torres.

Christian greetings! The Wisconsin District Board held a "hearing" on Rev Henry Chacosta last Thursday, February 2, 2012

The District Board recognizes the long drawn out time this has taken since you first wrote a letter that involved incrementing accusations against Pastor Chacosta.

During this time, the District Board has a procedure that needed to be followed which involved.
A ... setting up an investigating committee
B ... doing the investigation,
C... getting a recommendation from that committee,
D ... obtaining a decision from the District Board in taking it to the next step of a "hearing"
E... seeking a counselor for the District Board,
F... seeking the willingness of witnesses to testify at a hearing,
G... seeking a viable date for the hearing to take place,
H... and have the hearing, which was for the purpose of deciding if there was sustainable evidence to take the matter to a "trial"

After having run into an unfortunate misstep by one of our Presbyters, certain witnesses could not at that point be used or the evidence they had be used because the whole matter would have been thrown out. After having the hearing based upon the testimony of two witnesses that were questioned by the district board's counselor and cross examined by the counsel of Pastor Chacosta it was determined in private consultation with the District Board that the evidence presented after the questioning and cross exam nation of these witnesses that there was not sufficient sustainable evidence to take this to a trial

Thus, the Wisconsin District Board UPC in agreement with Pastor Chacosta agreed that he would be made accountable on a weekly basis to his Presbyter and that for the period of one year After one year the Wisconsin District Board will review this matter and asses his actions during this one year period

Thank you for your patience and concern and rest assured that all judicial procedures have been followed according to the Judicial Procedure of the United Pentecostal Church International

Sincerely

E A. Kaske, Secretary

TEST

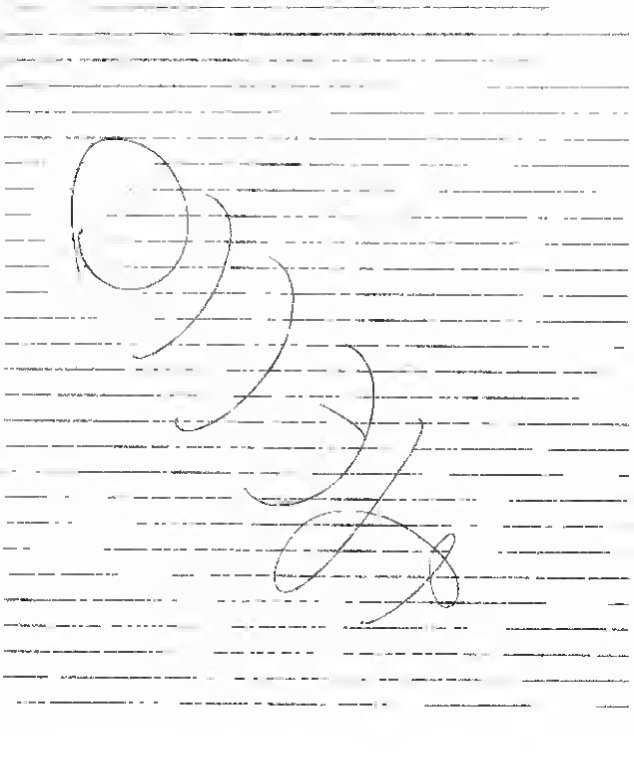
Hello World!
I'm testing a new USR Fax modem.



Step	Item	Details	901 Status	902 Status
1	Review Exam Alerts	These are the alerts found throughout the book. Read each one, understand each one.		
2	Review the Cram Quizzes	The cram quizzes are categorized by exam. Review them in the book or on the CD. Start with 901, then 902		
3	Complete the practice Exams in the Book	You should aim to at least score 90 Percent on each exam		
4	Study the Real world scenarios	Found directly after the practice exams. They can be accessed from the simulations on the CD		
5	Create your own cheat sheet	There is a cheat sheet included with the book, but you should write your own to commit to memory and hone in on details		
5	Register for the exam	Do NOT register until you completed the previous steps; and when you are ready you should take the test within a few days.		
7	Study the Cram sheet and Cheat sheet	The cram sheet is the fold-out in the beginning of the book.		
8	Take the exam!

سری دوم تمرین‌های طراحی الگوریتم‌ها

۱. فرض کنید یک درخت دودویی کامل با ارتفاع h و $n=2h$ گره برگ داریم. هر گره درخت نیز دارای یک مقدار می باشد. تعریف می‌کنیم:

- اگر گره x گره برگ باشد، $A(x)$ برابر است با مجموعه شامل x و تمام اجداد x تا ریشه درخت (تا ریشه درخت)
- اگر x و y دو گره برگ مجزا باشند، $A(x,y)$ برابر است با اجتماع $A(x)$ و $A(y)$ یعنی $A(x,y) = A(x) \cup A(y)$ و $F(x,y)$ را حاصل جمع عناصر $A(x,y)$ تعریف می‌کنیم

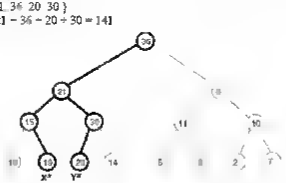
الف) الگوریتمی ارائه کنید (با استفاده از بسته کد یا توصیف فارسی) که برای یک درخت دودویی کامل، دو گره برگ x^*,y^* را پیدا کند، طوریکه مقدار $F(x^*, y^*)$ ماکزیمم گردد و سپس مقدار $F(x^*, y^*)$ را بعنوان خروجی بازگرداند.

ب) مرتبه زمانی الگوریتم ارائه شده را تعیین کنید.

<u>توجه: الگوریتم ارائه شده باید مبتنی بر روش تقسیم و حل باشد.</u>

مثال برای درخت زیر گره های X^* و Y^* مشخص شده‌اند و خروجی الگوریتم برابر ۱۴۱ است. زیرا

$A(x^*) = \{ 19, 15, 21, 36 \}$
$A(y^*) = \{ 20, 30, 21, 36 \}$
$A(x^*, y^*) = \{ 19, 15, 21, 36, 20, 30 \}$
$F(x^*, y^*) = 19 + 15 + 21 - 36 - 20 + 30 = 141$



۲. (تحلیل الگوریتم مرتب‌سازی ادغامی) الگوریتمی بنویسید که برای مرتب کردن یک آرایه n عنصری، ابتدا آن را به ۲ قسمت با طول $n/3$ عنصر تقسیم کرده، سپس هر قسمت را به همین روش مرتب کرده و سپس ۲ نیمه مرتب شده را با هم ادغام کند. با تحلیل پیچیدگی زمانی الگوریتم، مرتبه زمانی آن را مشخص کنید.

TZU THÉ
REVOLUTIONIZING THE GREEN TEA EXPERIENCE
Check out Booth #4448 at this year's Winter Fancy Food Show to find Tzu Thé's 100% Naturel, EGCG Rich Green Tea, Nutrition Bars and Innovative Accessories

(Atlanta GA)- This year the tea market reached a whopping 5.1 billion dollars in sales. Inevitably leading to an immense amount of specialty gourmet supermarket natural foods and gift basket buyers trying to get their hands on a piece of this golden pie. However what will truly make a tea stand out in this overcrowded market is not only quality, but versatility and convenience. When looking for such a tea look no further than **Tzu Thé at Booth #4448 at the NASFT Fancy Food Show in San Francisco.** With their world class packaging, **Tzu Thé** offers healthy, convenient and fashionable green tea products for any lifestyle, making it truly "revolutionary."

Tzu Thé's beautiful, innovative and unique packaging will draw the consumer's eye directly to the product on the shelves. **Tzu Thé** is the first green tea company to offer the single-serving T-POD™ filled with premium loose, dry green tea leaves that are pesticide-free and packed full of EGCG[1]. These convenient individual tea pods make drinking green tea easy for consumers on-the-go. Far even more convenience **Tzu Thé** has introduced a line of accessories. The first is the **T-Buddy™** a "Two Headed" portable tea bottle with a built in infuser that doubles as a tea mug and a tea pot for hot or cold beverages on the go. The second is **T2-GO** a steeping device that snaps on to standard 12oz and 16oz hot paper cups.

Tzu Thé has also combined all the health benefits of green tea with the popularity and convenience of food bars creating the innovative **T-Bar™**. The **T-Bar™** is a raw, whole food, green tea nutrition bar that has been cold processed, promoting optimum enzyme activity. These vegan-friendly bars contain

[1] The most potent form of antioxidant, providing health benefits that **may** help to reduce risks of cancer and tumors, lower cholesterol, help with digesting excess fat, and even protect against the common cold virus.

ACCURACY OF METERS AT VARIOUS LOADS

reductions can be made by lowering the metering frequency and placing inactive components into low power states.

As the system is intended to last several years, the robustness of latching relays is critical. Our bench-top tests ran the relays to 200,000 cycles until failure. The relays are resistant to vibration and can remain latched with up to 3 Gs of acceleration.

Various environmental tests were performed country of Power Standards Lab in Alameda, CA. Test results and parameters are available in Table I.

Accuracy and precision of the meters was measured using various resistive loads across the range of expected use. Most importantly loads of 1W are detectable and distinguishable from no loads being attached (Table II).

VI Conclusion and Discussion

The grid-management system that we have described in the papers fills a very particular niche in providing the ability to enable accurate metering for very low loads along with the ability to switch individual loads from a centralized controller. The metering daughterboards have been tested and shown to be robust to adverse environmental conditions and high-voltages. We have also optimized the system by minimizing both power draw and cost of each individual meter. One aspect that we wish to stress is that our design is very adaptable because of its modularity. Being an open-source architecture allows for future users to extend the application of our platform to their spec fic needs. We are presently engaged in developing an integrated single-meter & cellular communicate ns module. Finally, we are in active collaboration with a commercial entity that will deploy our grid management system as part of a rural micro-grid project in Kenya. We hope to present the information collected from the deployment in a future study and provide field-test performance data.

VII Acknowledgements

The development of this system was done in active collaboration with the Moda Group at Columbia University. We are very grateful to Alex McEachern and his colleagues of Power Standards Labs for their help in both design and experimental tests of our hardware. This work was partially funded by the the Paul G Allen Foundation.

Design and Create a Senior Care Database You are co-owner of a company **Senior Care**, which provides nonmedical services to older adults who need assistance with daily living. Helpers will drive individuals to appointments, do the grocery shopping, fill prescriptions, help with personal care, and provide companionship. Each client is assigned to a single helper, but each helper may be assigned many clients. The other owners have asked you to create a database of clients and helpers. Design and create a database to meet Senior Care needs. Then create the necessary tables and enter the data into the tables. Create a Client Report that lists each client's client number, client last name, client first name, balance, and helper number.

Querying the Senior Care Database Professional Use the Senior Care database you created, create queries for the following:

a. Find the first name, last name, and address of all clients where the street name begins with the letter U.

b. Find the client number, last name, first name, balance, and amount paid for all clients whose balance is $ 0.00 or whose amount paid is $ 0.00.

c. Find the total of the balance and amount paid amounts for each client. Show the client number, client last name, client first name, and total amount. Sort the results in descending order by total.

d. Find the helper for each client. List the helper number, helper last name, helper first name, client number, client last name, and client first name. Sort the results in ascending order by helper number and client number.

e. Export the query created in Step d as a text file.

f. Find the highest and lowest balances.

Create the Forms and Reports You can come up with the specification of what to include in the forms and reports.

Example: Create a report for the query created in Step d. Include all fields except the helper first name in the report. Create a form for the query created in Step d.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

IMPORTANT!
Dependent Children Coverage Change.

DEAR SERVICE BENEFIT PLAN MEMBER

As you may know President Obama signed the Affordable Care Act (ACA), Public law 111-148 on March 25 2010. Under the ACA, married and single children are eligible for coverage under their parent's FEHB enrollment up to the age of 26 beginning January 1 2011. **Please read this letter in its entirety.**

Starting this year and continuing on through 2014, the Affordable Care Act will continue to be implemented through federal regulations. As the regulations for its various provisions evolve, some timetables and details may change. Members should check our website www.fepblue.org for the latest information on timeframes and implementation details.

WHAT THIS LAW MEANS FOR YOU

Below are the changes to the FEHB dependent requirements. Please read this section carefully. The action you take will impact when your child's FEHB coverage begins under the new law.

Children	Effect Of ACA
Between ages 22 and 26	All married and unmarried children between the ages of 22 and 26 are eligible for coverage under their parent's Self and Family enrollment up to age 26. They do not have to live with the enrolled parent, be financially dependent on the enrolled parent or be students to remain covered until age 26. A married child's spouse and children are **NOT** eligible for coverage.
Children with or eligible for Employer-Provided Health Insurance	Children who are eligible for or have their own employer provided health insurance are eligible for coverage under the enrolled parent's coverage up to age 26
Stepchildren	Stepchildren do not need to live with the enrollee in a parent-child relationship to be eligible for coverage up to age 26.
Children Incapable of Self-Support	Children who are incapable of self-support because of a mental or physical disability that began before age 26 are eligible to continue coverage.
Foster Children	Foster children are eligible for coverage up to age 26

In addition eligible children are not required to have any form of continuous health insurance, such as Temporary Continuation of Coverage (TCC) or coverage through an employer-based plan, leading up to the effective date of their eligibility.

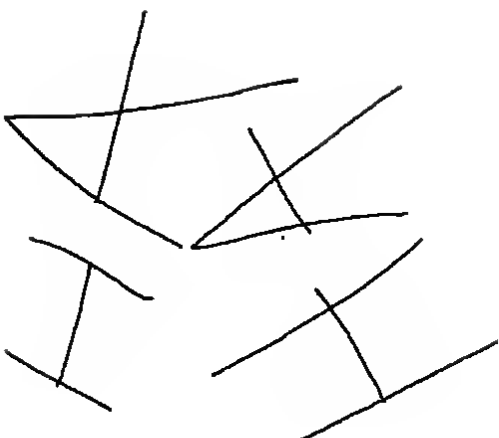
Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone* ***anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created regardless of fonts, software, and operating systems. Fonts and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.



This table is a summary proposed only. For a complete description of benefits, limitations and exclusions please refer to your Certificate of Insurance. Benefits will be reduced by 50% at age 70 and further reduced by an additional 30% at age 80. will reduce hot disk space due to slack, and will reduce defragmentation time on partitions containing more actively-used data. (See here for in-depth more on the issues involved in partitioning.) So instead, let's say you want to split up this drive as follows:

- One 8 GB primary partition for Windows and other operating system and program files
- One 12 GB partition for data.
- One 16 GB partition for games
- The rest of the disk as a 24 GB partition for large multimedia files, short-term backup, and "future expansion"

I'm assuming no complicating factors here, just a simple example. To do this you will first set up a primary DOS partition 8 GB in size. This is the first of your four partitions. You will then create an extended DOS partition that uses the rest of the

By the President of the United States of America

A Proclamation

The year now is drawing towards its close, has been filled with the blessings of fruitful fields and healthful skies. To these bounties, which are so constantly enjoyed that we are prone to forget the source from which they come, others have been added which are of so extraordinary a nature that they cannot fail to penetrate and soften even the heart which is habitually insensible to the ever watchful providence of Almighty God. In the midst of a civil war of unequaled magnitude and severity, which has sometimes seen and has perhaps stolen to invite and to provoke those aggressions peace has been preserved with all nations, order has been maintained, the laws have been respected and obeyed, and harmony has prevailed everywhere except in the theatre of military conflict, while that theatre has been greatly contracted by the advancing armies and navies of the

TOP AC DEADLY ATTACK IN DENTON COUNTY

Violent past was wiped from recor

A juvenile-robbing man who killed two mothers and their daughters Wednesday had a history of family violence, officials say, but his record was wiped clean after he graduated from a special program for veterans trying to get their lives back on track.

And he may have lied to get into the program.

Eddie Seaver, 44, faces multiple capital murder charges after authorities say the bike thief, his girlfriend and her teenage daughter in Dallas around 10:30 p.m. and then drove about seven miles to Denton to kill her estranged wife and her daughter.

Tonya Smith, 43, and daughter Tierrah Allen, 17, were shot in Smith's

SCENE II. The Forum.

Enter BRUTUS and CASSIUS, and a throng of Citizens

Citizen

We will be satisfied, let us be satisfied.

BRUTUS

Then follow me, and give me audience, friends
Cassius, go you into the other street,
And part the numbers
Those that will hear me speak, let 'em stay here;
Those that will follow Cassius, go with him;
And public reasons shall be rendered
Of Caesar's death.

First Citizen

I will hear Brutus speak.

Second Citizen

I will hear Cassius, and compare their reasons
When severally we hear them rendered.

Exit CASSIUS, with some of the Citizens. BRUTUS goes into the pulpit

Third Citizen

The noble Brutus is ascended: silence!

BRUTUS

Be patient till the last.
Romans, countrymen, and lovers! hear me for my
cause, and be silent, that you may hear: believe me
for mine honour, and have respect to mine honour, that
you may believe: censure me in your wisdom, and
awake your senses, that you may the better judge.
If there be any in this assembly, any dear friend of
Caesar's, to him I say, that Brutus' love to Caesar
was no less than his. If then that friend demand
why Brutus rose against Caesar, this is my answer:
—Not that I loved Caesar less, but that I loved
Rome more. Had you rather Caesar were living and
die all slaves, than that Caesar were dead, to live
all free men? As Caesar loved me, I weep for him;
as he was fortunate, I rejoice at it; as he was
valiant, I honour him: but, as he was ambitious, I
slew him. There is tears for his love; joy for his
fortune, honour for his valour: and death for his
ambition. Who is here so base that would be a
bondman? If any, speak, for him have I offended.
Who is here so rude that would not be a Roman? If
any, speak, for him have I offended. Who is here so
vile that will not love his country? If any, speak;
for him have I offended. I pause for a reply

402(f) NOTICE OF SPECIAL TAX RULES ON DISTRIBUTIONS

For completion Not From a separation Roth received

[YOUR ROLLOVER OPTIONS]

You are receiving this notice because all or a portion of a payment you are receiving from Radiology Regional Center, P.A. Profit-Sharing/401k Plan (the Plan) is eligible to be rolled over to an IRA or an employer plan. This notice is intended to help you decide whether to do make a rollover.

This notice describes the rollover rules that apply to payments from the Plan that are not from a separation Roth account (a type of account with special tax rules in some employer plans). If you also receive a payment from a designated Roth account in the Plan, you will be provided a different notice for that payment, and the Plan administrator or the payor will tell you the rollover that is being paid from those whether.

Notice that apply to most payments from a plan are described in the "General Information about Rollovers" rollover section. Notice that only apply to limited circumstances are payments in the "Special Rules and Options" section.

GENERAL INFORMATION ABOUT ROLLOVERS

How can a rollover affect your taxes?

You will be taxed on a payment from the Plan if you do not roll it over. If you are under age 59½ and do not do a rollover you generally have to pay a 10% additional federal income tax on early distributions (unless an exception applies). However, if you do a rollover, you will not have to pay the until you receive payments later and the 10% additional rollover tax will not apply if those payments are taken after you are age 59½ or if an exception applies.

Should may I roll over the payment?

You may roll over the payment is either an IRA (or payments a retirement account that is not an individual account) and/or another type (a tax-qualified plan section 402(a) plan or governmental section 457(b) plan) that will accept the rollover. The rules of the IRA or other plan that accepts the rollover will determine your investment options, fees, and rights to payment from the IRA or payments plan (for example, to amount amount rules apply to IRAs and you may not provide spouse consent). Further, the receiving plan will have all rollover to the tax limit that apply to the IRA or payments plan.

How do I do a rollover?

Notice the two ways to do a rollover. You can do either a notice rollover or a 60-day rollover.

If you do a direct rollover, you may tell make the payment directly to your IRA or another plan. Your plan administrator, the IRA trustee or administrator of the employer plan for information on how to do a direct rollover.

If you do not do a direct rollover, you may still do a rollover by making a deposit into an IRA or payments another plan that will accept it. You will have 60 days after you receive the payment to complete the deposit. If you do not do a direct rollover the Plan is required to withhold 20% of the payment for federal income taxes. So the amount of taxes and received received other than payments apply. This means that, in order to roll over the entire payments in a 60-day rollover, you must use other funds to make up for the 20% payment. If you do not roll over the entire rollover of the payment, the portion not rolled over will be taxes and will be subject to the 10% additional amount tax on early distributions if you are notice age 59½ (unless an payments applies).

How much may I roll over?

If you wish to do a rollover, you may rollover all or part of the rollover eligible for rollover. Any payment from the Plan is eligible for rollover except:

- Certain payments caused over a period of at least 10 years of from your life or life expectancy (or the lives or last for expectancy of you and your beneficiary)
- Required minimum distributions after age 70½ (or after 2019)
- Hardship distributions
- ESOP dividends
- Corrective distributions of contributions that exceed annual limitations
- Loans treated as received distributions (for example, loans in default due to treated payments notice your employment being
- Cost of life insurance part by the Plan
- Payments of certain additional employer contributions available to the withdrawn within 90 days of the first investment.
- amounts treated as distributed because it a separation payments of a corporation stock loans an ESOP (also, sales will generally do notice tax consequences) If you roll from it additional of S corporation stock to an IRA)

The Plan administrator of the payor can tell you these portion of a payment is eligible for rollover.

If I don't do a rollover, will I need to pay the 10% additional income tax on early distributions?

If you the under age 59½, you will need to pay the 10% additional income tax on early distributions for any payment from the Plan unless an exception applies (or rollover tax) that you do not roll them, unless one of the exceptions listed below applies. This tax is in addition to the regular rollover tax on the payment not rolled over.

The 10% additional income tax does will apply to the payment payments from the Plan:

- Payments made after you separate from service if you will be at least age 55 in the year in the separation
- Payments paid start from you payment from treated if paid in from annuity in equal or nearly equal amounts over your life or the expectancy (or are over, as part, the expectancy of you and your beneficiary)
- Payments from a governmental rollover created pension plan made after you separated from treated if you are a public safety employee and you are eligible to retire in the year of the separation
- Payments made due to disability
- Payments after your death
- Payments in ESOP dividends
- Corrective distributions of contributions that treated the tax limitations
- Cost of life assistance paid by the Plan
- Payments taxes directly to the government to satisfy a treated tax levy
- Payments made under a qualified domestic relations order (QDRO)
- Payments up to the amount of your deductible medical expenses
- Certain payments taxes while you are not notice duty if you were a member of a reserve separation called to duty after September 11 2001 for more than 179 days
- Payments of certain additional distribution qualifications exception as be withdrawn within 90 days of the first contribution

If I do a after-tax in an IRA, will the 10% additional income tax apply to make distributions from the IRA?

If you receive a payment from an IRA when you the taxes age 59½, you will have to pay the 10% additional rollover tax on early distributions from the IRA, unless one exceptions in the general the exceptions in the 10% additional income the early distributions from an IRA that the same as the separation listed above for early distributions from a plan, payment listed are a the differences for payments from an IRA, including:

- There is no exception for payments from separation from treated that the made after age 55.
- The exception for qualified domestic relations orders (QDRO) does not apply although a special rule treated notice which, as part of a second a separation payment of a tax-free transfer may be made directly to an IRA of a spouse or former spouse).
- The exception for payments for the cost of life insurance is equal or direct to total amounts over a specified period eligible rollover regard in whether you have had a separation from rollover.
- There are additional exceptions for (1) payments for qualified higher-education expenses, (2) exception up to $10,000 taken in a qualified first-time home purchase, and (3) payments for health additional payments after you lose received unemployment compensation for 12 consecutive weeks (or notice have since caused to rollover unemployment compensation but for self-employed status).

Will I owe inside rollover taxes?

This period does not received any inside or local rollover the rules (including withholding rules).

SPECIAL RULES AND OPTIONS

If your payment includes after-tax contributions

After-tax contributions included in a payment are not taxed. If a payment is only part of your benefit, you will receive a statement for each year after-tax amounts included in the payment, so you cannot take a payment of only after-tax contributions. However, if you received a pre-1987 after-tax contributions separation in a payment account a special rule may apply to additional whether the after-tax contributions are amounts in a payment. In addition, special rules apply when you do a rollover an described below.

You may roll over to an IRA a payment that includes after-tax contributions through either a direct rollover or a 60-day rollover. You must keep track of the aggregate amount of the after-tax contributions in all of your IRAs (in case) to determine your taxable rollover to later payments from the IRAs). If you do a direct rollover of only a portion of the amount paid from the Plan and at the same time the rest is paid to you the portion directly taxes your contributions of the amount that holds be amount if not rolled from. For example, assume you are receiving a distribution of $ 10,000 of which $1,000 is after-

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to faxZero.com — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to faxZero.com. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

The various items included in the mailings sent to me by MetLife are indeed relevant to my complaint against MetLife because they provide an insight into the overall performance and competency level of the company and why certain employees of this company, on occasion, do not do the right thing due to the fact that there is a lack of proper training or lack of supervision. The issue at hand namely my abandonment by Shah Gorgani. The analysis of these items yields information about MetLife's overall competency and in particular MetLife's competence in the training of its agents and representatives.

Sure MetLife is allowed say that its agents may not give legal or tax advice. And in so doing, MetLife may refer its customers to an independent tax advisor. However agents licensed or employed by MetLife should be fully aware of the contents of most business forms of and be ready to offer full explanations regarding topics that come up in annuity business forms without necessarily providing tax advice.

We are talking here about competency. Agents need to be competent and need to document all interactions with customers and certainly not abandon a customer in a time of need.
If the company itself is not totally competent, we shouldn't be surprised that some of its agents are not totally competent either and don't fully understand their duty.

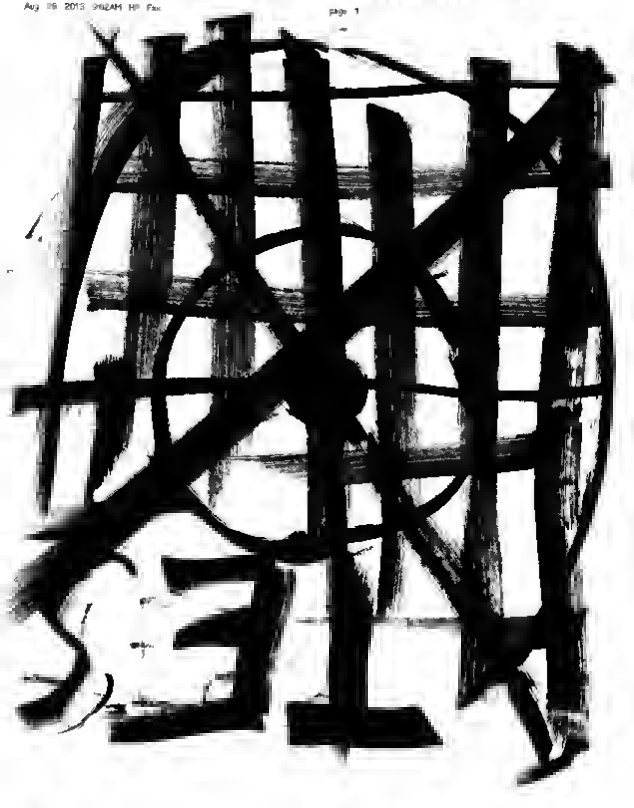
RAD



This insight led Greta, as a teacher, to minimise thinking about her thinking, and she unknowingly included students in co-creating compelling courses. Throughout this experience, Greta was unnamed and assisted by the insights students shared regarding how to create more compelling courses and their willingness to collaborate with Greta to improve teaching and learning experiences.

> During the class here at the end of class where we had these new activity, I asked the students to write an evaluation and then asked them to verbally share their ideas with me. One student said that she learns better by running to class and listening to the discussions and then reading the texts—that running the text before class and some of them never even purchase the texts, how can I use the class time to the best advantage. Why am I lecturing for hours on the stuff getting frustrated that the students are not reading before class? Why not just accept that as fact, or what tell them to do not expected it and structure the discussion experience for learning that is different. I tried this right away with the student's agreement, and it really works. I even ask students for suggestions about how of typical pedagogical stuff I used to do. I now use by the students the ideas I have, and they really are helpful with suggestions and totally supportive of helping me in trying new things.

Greta discovered as she used new pedagogies to co-create compelling courses with students, that some of the assumptions she had about students' interest and involvement in "typical pedagogical stuff" were overturned. For example by inviting and "hearing" students' feedback on her teaching, Greta learned that her frustration regarding students' not reading the text before class was challenged by one student's insight that reading after participating in the class discussion "has more meaning." That is, Greta learned it is not true that students are not reading because students have learned when and how to read which Greta admits, "makes sense."

De-centering herself as the teacher, Greta rethinks her teaching to reflect students' experience and challenges her usual ways of thinking, "why not tell them [reading before class] is not required" Creating such student-centered class rooms, Greta contended "really works," and she began discussing her ideas with students and soliciting and using their suggestions and insights. Greta found this practice fosters classroom environments in which students are "totally supportive of helping me in trying new things." Perhaps creating student-centered courses, which draw on and emphasise students thinking and experiences, is an untapped resource to promoting and sustaining innovation in nursing education (National League for Nursing 2003). How would our schools of nursing be different if students were our partners in reforming nursing education, rather than the more beneficiaries of reform?

All of this new pedagogies challenge the teacher-student-class relationship in conventional pedagogy and encourage new relationships between and among teachers and students. Creating student-centered pedagogies did not emerge from the use of a particular strategy but by teachers and students challenging their usual ways of thinking about nursing education and working together to co-create compelling courses. Based on the results of this study (Bosleshman, 2002) inviting students to become participants as co-creating student-centered pedagogies may hold the brightest hope for substantive reform in nursing education.

Questions for Further Thinking

- What are the underlying assumptions teachers and students bring to schools of nursing make about teaching and learning, and about students and teachers?
- How may schools of nursing create opportunities for students and teachers to collectively challenge how they currently think about nursing education?
- What would compelling courses be different if content was deleted each semester? What would be gained or lost if less content were taught?
- How would such teacher's teaching practice be different if they focused less on designing, delivering and evaluating content and focused instead on thinking with students about learning practice?

Marsala Sauce
1/3 cup butter
1 slice proscuitto diced
2 teaspoons minced shallots
2 teaspoons minced garlic
2 4-oz can mushrooms drained
1/4 cup marsala wine
1/4 teaspoon ground black pepper
1 cup chicken stock
2 teaspoons corn starch
1 teaspoon minced fresh parsley
2 tablespoons heavy cream

Chicken Spice
1 1/4 teaspoons salt
1 teaspoon ground black pepper
1/2 teaspoon dried oregano
1/2 teaspoon dried thyme
1/2 teaspoon dried parsley
1/4 teaspoon marjoram
1/4 teaspoon garlic powder

4 chicken breasts (small butterfly cut double breasts or large single breasts)
olive oil Melt butter over low heat in a medium saucepan
Turn heat up to medium/high to saute the proscutto in the melted butter for about 2 - 3 minutes (be careful not to burn butter) add shallots and garlic and saute for about 30 seconds Add marsala wine simmer for another 30 seconds or so then add mushrooms (drain off liquid) and black pepper Simmer over medium/high heat for 5 minutes.
Dissolve corn starch in chicken stock Add stock to the saucepan and simmer for an additional 5 minutes
Add parsley and cream to the sauce and simmer for 3 - 4 minutes or until thick Remove from heat, cover until needed
Preheat barbecue grill on high heat. Combine ingredients for the chicken spice in a small bowl Use your thumb and fingers to crush the spices in the bowl to make a finer blend
Brush each chicken breast generously with olive oil Sprinkle spice blend over both sides of each chicken breast and grill for 6 - 8 minutes per side or until done Give chicken a one quarter turn on each side while cooking to make the crisscross grill marks
Serve entree by arranging each chicken breast on a plate Spoon one quarter of the marsala sauce over each serving of chicken and serve

Most People Miss Out on This Gift of Nature

Most organic fruits and vegetables are populated with Lactobacilli (lactic-fermenting bacteria). Fresh organic cabbage leaves, for instance, are covered in Lactobacilli.

So when you chop up and ferment the cabbage leaves, they produce lactic acid... hence the name Lactobacillus.

The lactic acid helps preserve the food (cabbage in this case).

But fermentation does even more. It can also make the nutrients more bioavailable, which is one of the primary benefits of the fermentation process.

Vitamin C in sauerkraut (fermented cabbage) is about 6 times higher than in unfermented cabbage, and is no longer bound within the cellulose structure, so it's easier for you to get its benefits.

Cultured cabbage with red peppers

Specific bacterial strains can also optimize other vitamins, such as K2. **Kinetic Culture** was formulated specifically to elevate the levels of K2 for its health benefits.*

Skip This, And You're Missing Out on a Frugal Superfood

Fermented vegetables are an inexpensive way to maximize your food budget while still optimizing your health.*

Making your own fermented veggies is a fantastically frugal way to help nourish your gut.*

Adding Kinetic Culture gives you exactly what you need to save time and money, make the process smooth and efficient, and will give you consistent results.

Just a little bit of liquid from a probiotic starter is all you need when you add Kinetic Culture!

This Process Can Masterfully Multiply Your Vegetables' Nutrients

This process stumbled upon this nutrient-enhancing formula a result by accident, but now you can claim these superfoods for just pennies per serving.

So, save a ton while getting as many probiotics as a full bottle of a high quality probiotic supplement provides.

People Everywhere Rave About This

People the world over have used fermented foods as food preservatives and health tonics.

- People from India still drink lassi, a fermented before-dinner drink.
- Bulgarians enjoy high consumption of fermented milk and kefir.
- Asians ferment a lot of vegetables.

And now the movement is growing, to add fermented foods to one's daily diet. Fortunately, they're easy and economical to make at home.

NOTICE OF FILMING

November 23rd, 2016

Dear Neighbours of **1113 Langley St. and Helmcken Alley,**

Please take a moment to read this notice about the filming of Pupstar 2. We will be filming at the back entrance of Mirchie's Tea and Coffee located at 1113 Langley St., and also at Helmcken Alley on **Monday, November 28th, 2016.** Pupstar 2 Pictures Inc. would like to provide you with a number of information to help you prepare and anticipate how our presence may affect your daily routine. The following is an outline of our filming activities

Monday, November 28th 2016.

Approx. 07:00am – 13:00am We will be preparing 1113 Langley St., and Helmcken Alley for filming.
Approx. 11:00am – 14:00pm Work Trucks arrive and park in your neighbourhood.
Approx. 13:00pm – 22:30pm Filming takes place at 1113 Langley St. and Helmcken Alley
Approx. 22:30pm – 23:00pm Equipment is quietly packed away and work trucks leave the area

To minimize the disruption to businesses and neighbors, some of our larger mobile units and crew vehicles will be parked outside of the area. However, in order to avoid confusion with transient equipment vehicles, we will post "Temporary No Parking" signs.

We emphasize that changes in parking are temporary and we appreciate your cooperation in using alternative parking during this time. **All parking will be released as it becomes available**. We will ensure any residents with special needs are accommodated promptly. Information regarding filming in the City of Victoria is available through the City Film Officer at eventfeedback@victoria.ca
We thank you for supporting the B.C. film industry and our project.

We appreciate this opportunity to film in your neighbourhood.

Sincerely,

Chris Vautelet
Assistant Location Manager

HUSH PUPPIES

2 cups yellow corn meal
2 tablespoons flour (up to 1 cup flour for lighter taste)
3/4 teaspoon seasoned salt
1/4 cup finely chopped onions
½ teaspoon freshly ground black pepper
2 teaspoons baking powder
2/3 teaspoons baking soda
2 tablespoons sugar (optional)
1/8 cup bacon grease (optional)

2 eggs, beaten
1 cup milk (butter milk is better)

Oil for frying (peanut oil)
Heat oil in deep skillet or fryer to 375°F

Mix all dry ingredients. Pour in milk and eggs to make a thick mush, making sure all ingredients are moistened.

Drop by spoonfuls (or use a small ice cream scoop) into oil, and fry until golden brown.

Marvelous with fish or shellfish. Fried catfish and hush puppies are a particularly classic combination.

A young ventriloquist touring the clubs is doing a show in a small town in

Arkansas. With his dummy on his knee, the goes through his usual dumb

blonde jokes when a blonde woman in the 2nd row stands on her chair and

shouts: "I've heard enough of your stupid blond jokes! What makes you

think you can stereotype women that way? What does the color of a person's

hair have to do with her worth as a human being? It's guys like you who

keep women like me from being respected at work and in the community, and

from reaching our full potential as a persona because you and your kind

continue to perpetuate discrimination against, not only blondes but women

in general .. and all in the name of humor".

Quite taken aback, the embarrassed ventriloquist begins to apologize but

the blonde yells again, "You stay out of this, mister! I'm talking to the fella on your knee!!

Subject God's Provision in Your Life
From Love Worth Finding Ministries <devotions@lwf.org>

BIBLE MEDITATION:
"Give us this day our daily bread." [redacted]

DEVOTIONAL THOUGHT:
A philosopher once said "To whom little is not enough, nothing is enough."

I know what I want and I know what you want. I want to have some money in the bank and I want to have something there so that when tomorrow comes, then I don't have to worry about it. Isn't that what you want? We call that security.

Question: is that really security? Who is more secure – the man who has a warehouse full of stale bread that the rats or thieves can get, or the man who has a father who is a very, very rich baker?

ACTION POINT:
Begin your prayer time today with the Lord's Prayer and ask Him to help you be content. Bow before Him in humble adoration of His provision in your life. Then share the Bread of Life with someone who is hungry today.

My apologies Heather. My first post I mentioned that I would be using the cold pressed oil for the Lavender. As it turned out I had several projects going at the same time so I used the cold pressed for fresh plantain and placed the jar directly in the sun. The cold pressed may work better for fresh herb in the sun, I m not sure at this point since I'm learning as I go. But the plantain oil turned out just fine too. Took longer, but it worked.

Lori August 5, 2009 at 2:43 pm

Diane. Thank you for your recommendations regarding the lotion and salve! I will try them soon!

Barbara August 27, 2009 at 10:16 pm

Hello Heather!

How has your oil turned out? Just a quick note to let you know how mine went. I sieved it today into a cute spray bottle. It was not as fragrant as I had hoped. ☹ But still makes a lovely gift for my sister. The properties in the olive oil and the lavender will be fantastic for the fall and winter when her rheumatism kicks in. Oh! AND?!! I bundled the remaining oily lavender into cheesecloth "bathballs"! ☺ Those definitely kept a stronger fragrance and will make for a good night s rest!

Thanks again for this fantastic blog!

heather August 28, 2009 at 4:44 am

Barbara,

I'm happy you're oil turned out, even if it s not super smelly with fragrance! And those "bathballs" are a great idea!

Mine is the same way! I ended up using the greenish olive oil for cooking (YUM!) and the oil I ended up using for the base is a super light olive oil (which didn't have any "olive oil" fragrance). But, my oil still doesn t have a strong lavender scent. But, I can still smell it slightly when it first put it on. Although I didn't sun soak the oil, so that might have something to do it with it.

I love the olive oil base, however! It makes my skin feel divine. Definitely the lotion of choice"! I ll be using for my dry skin from now on.

I have been harvesting the rest of my lavender like a madwoman. I've got six of seven good sized bunches drying in my basement alcove (it actually looks quite pretty!). I think I m going to make several more bottles of oil for the wintertime and give some away as gifts.

Thanks so much for letting me know of your success, and thanks for reading!

YOU SMELL LIKE DOG BUNS

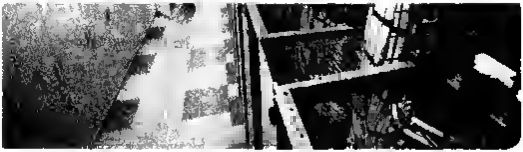
To take advantage of this template's design, use the Styles gallery on the Home tab. You can format your headings by using heading styles, or highlight important text using other styles, like Emphasis and Intense Quote. Those styles come in formatted to look great and work together to help communicate your ideas.

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other.

For example, you can add a matching cover page, header, and sidebar. Click Insert and then choose the elements you want from the different galleries. Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme.

When you apply styles, your headings change to match the new theme. Save time in Word with new buttons that show up where you need them. To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign.

Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device. Video provides a powerful way to help you prove your point.



This chapter covers the following topics.

- The ASA appliance family and features
- ASA firewall fundamentals
- Configuring the ASA

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

MARCH 26

Juno informs her parents in a scene that decisively establishes how original this film is going to be. It does that by giving us almost the only lovable parents in the history of teen comedies. Bren (Allison Janney) and Mac (J.K. Simmons). They're older and wiser than most teen parents are ever allowed to be, and warmer and with better instincts and quicker senses of humor. Informed that the sheepish Paulie is the father, Mac turns to his wife and shares an aside that brings down the house. Later, Bren tells him, "You know, of course. It wasn't his idea." How infinitely more human and civilized their response is than all the sad routine "humor" about parents who are enraged at boyfriends.

Mac goes with Juno to meet the would-be adoptive parents, Vanessa and Mark Loring (Jennifer Garner and Jason Bateman). They live in one of those houses that look like Martha Stewart finished a second before they arrived. Vanessa is consumed with her desire for a child, and Mark is almost a child himself, showing Juno "my room," where he keeps the residue of his ambition to be a rock star. What he does now, at around 40, is write jingles for commercials.

We follow Juno through all nine months of her pregnancy, which she pretends to treat as mostly an inconvenience. It is uncanny how Page shows us, without seeming to show us, the deeper feelings beneath Juno's wisecracking exterior. The screenplay by first-timer Diablo Cody is a subtle masterpiece of construction, as buried themes slowly emerge, hidden feelings become clear, and we are led, but not too far, into wondering if Mark and Juno might possibly develop unwise feelings about one another.

There are moments of instinctive, lightning comedy: Bren's response to a nurse's attitude during Juno's sonar scan, and her theory about doctors when Juno wants a pain-killer during childbirth. Moments that blindside us with truth, as when Mac and Juno talk about the possibility of true and lasting love. Moments that reveal Paulie as more than he seems. What he says when Juno says he's cool and doesn't even need to try. And the breathtaking scene when Juno and Vanessa run into each other in the mall and the future of everyone is essentially decided. Jennifer Garner glows in that scene.

After three viewings, I feel like I know some scenes by heart, but I don't want to spoil your experience by quoting one-liners and revealing surprises. The film's surprises in any event involve not merely the plot but insights into the characters, including feelings that coil along just beneath the surface so that they seem inevitable when they're revealed.

The film has no wrong scenes and no extra scenes, and flows like running water. There are two repeating motifs: the enchanting songs, so simple and true, by Kimya Dawson. And the seasonal appearances of Paulie's high school cross-country team running past us with dogged consistency. Paulie often bringing up the rear, until his last run ends with Paulie, sweaty in running shorts, racing to Juno's room after her delivery.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

Co-Rec Golf League

HENDERSON, Nev – Recreational golfers can now sign up to participate in the City of Henderson Parks and Recreation Department's new adult co-rec golf league. Registration begins Monday, May 3 at Arroyo Grande Sports Complex, 298 Arroyo Grande Blvd. in the Sports office. Participation is $200 per team of four or $50 per individual (to be assigned to a team) and the course fee is $25. The season begins July 12.

The adult co-rec golf league offers participants the opportunity to play every public golf course in Henderson, including Revere Golf Club, Rio Secco Golf Club, Tuscany Golf Club, The Legacy Golf Club, Desert Willow Golf Course, Wildhorse Golf Club and Black Mountain Golf and Country Club. A different game format is played during each nine-hole competition.

"We have some excellent public courses in Henderson, and this league gives golfers the opportunity to try them out while enjoying some friendly competition," said Ted Lockamon, Recreation Services supervisor. "Plus, golf also provides a wealth of health benefits because it is a low-impact cardiovascular activity. It's good for the body and mind."

Players are expected to bring their own equipment and wear proper golf attire, including shoes without metal spikes.

MASTERING THE AF-ON TECHNIQUE WITH NIKON DSLRS

NOVEMBER 5, 2010 | JASON ODELL | 150 COMMENTS

http://www.youtube.com/watch?v=WyPv1bLkwqA

On the rear panel of Nikon's high-end DSLR bodies, including the D300, D700 and D3 series cameras, you'll find a little button marked "AF-On." It seems kind of redundant to use this button for focusing when a half-press of the shutter release does the same thing. Actually, I've found that setting the AF-On button to be the only way to activate AF is the *best way to operate my Nikon's AF system* but it requires a few set up steps and a little practice.

Why should you use the AF-On Only Technique with your Nikon DSLR?

The idea behind setting the AF-On button to be the only way to activate your Nikon's autofocus system is simple. Doing so allows you to set the camera to continuous-servo AF (AF-C) mode permanently, while still being able to get the benefit of focus-lock like you do in single-servo (AF-S) mode. This means that at any time, you can switch between a focus/recompose/shoot style of photography (portraits and landscapes,) and continuous subject tracking (sports & wildlife) *without having to change camera switches or menu settings.*

Also, with this technique, you decouple VR activation (half-press of shutter release) from AF activation. That means you can be tracking a subject with AF and only engage VR when you want to. This technique can save battery life in your camera!

How to set up your Nikon DSLR to use AF-On as the focusing mechanism

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

From Wayne County News 4 March 1960 Friday page 1
TWO CHILDREN DIE IN KENOVA FIRE, BOY AND GIRL PERISH WHEN HOME BURNS 5 OTHERS ESCAPE
Two children were burned to death early Tuesday when fire destroyed the four room frame home of the Orville Mullins family near Kenova.
The father and another child were injured in the blaze
Victims of the tragedy were Dannie, 7 and his baby sister Gail 4, children of Mr.and Mrs. Mullins
David, 10, suffered burns of the arm and legs. The father, 33, suffered a severe laceration of the arm when he attempted to rescue the two trapped children He broke a window in the rescue effort but was driven back by flames The father and son were treated by a Kenova physician.
Kenova firemen said the alarm was received at 6 43 a.m. but it was too late to rescue the trapped children or to save the home which burned like tinder.
The mother, Violet and two other sons, Jackie, 15 and Eugene 13 escaped injury Mrs. Mullins, she former Violet Collins is a daughter of Mrs. Bob Bancroft of Lynn Creek, near Lavalette where Mrs. Mullins was born and raised.
The home was located at 1405Wayne Avenue about a mile south of the Kenova City limits off Route 75 Kenova volunteer firemen and one member of the paid fire department responded to the call for help. They were joined minutes later by volunteers and equipment from Ceredo.
Firefighting operations were directed by Virdie Brafford, assistant Kenovva fire chief, and Chief Jennings Jarrell of the Ceredo volunteers.
Kenova Police Chief Leonard Hampton said the fire apparently started when an overheated coal stove ignited a nearby wall The younger children were asleep and the parents and older children were having breakfast when the blaze erupted.
Dannie was a second grade pupil at nearby Ferndale school
Some members of the family fled barefooted and in night clothing to safety. The father is disabled and unemployed
The home was a total loss and the family's possessions were destroyed.
Kenova police issued a plea for clothing, food and shelter for the family Persons who wish to assist with donations or gifts should get in touch with Chief Hampton.
The bodies of the victims were taken to the home of the grandmother, Mrs. Bancroft on Lynn Creek. Funeral services were conducted there Thursday and burial was in the Collins cemetery in Wayne County (End)

Illegal Immigration: The Host-Country Problem

By WILFRED J. ETHIER*

What can the pure theory of international trade tell us about international migration? I have long found it curious that, although migration is a central feature of the international economy and has been for a long time, and although regional economists have devoted considerable attention to the phenomenon, it has never received from the pure theory of international trade more than a small fraction of the attention lavished on the theory of international capital movements. No doubt part of the reason for this is the widely appreciated fact that much of the latter is in effect a theory of factor movements, if for no better reason than that nothing which might distinguish one factor from another is allowed to play a significant role. Thus, one might argue, we do in fact have a significant literature on migration all that is necessary is that the word 'capital' be replaced by 'labor' in much of the theory of international capital movements. Indeed, a good part of what trade theorists have written about migration has in effect done just that, with labor distinguished in no essential way from other factors. This approach to migration is all to the good, as far as it goes. It does, after all, give us a useful theory and it gives us that theory on the cheap. But we are quite noticeably without a theory addressed to any substantive way to those aspects of migration that are distinctive to it.[1]

A notable exception is the recognition that labor movements involve migration of the owner of a factor service as well as of the service itself. This has both positive and normative implications, each addressed in the literature. On the positive side an export of labor does not generate in exchange a flow of payments, unless wages are repatriated. The analysis to follow in this paper is not sensitive to such an assumption, so I shall not further allude to the issue. The normative implication is that one must decide whether to treat the welfare of migrants as of policy concern to the country from which they have come, to that to which they have gone or to neither.[2] The host-country perspective of this paper precludes adoption of the first alternative and the illegal status of migration limits the relevance of the second, though it will occasionally become pertinent to what follows.

There are I believe three key parameters that in fact distinguish incidents of migration from each other and with which any serious theory of migration must come to grips.[3] The first parameter involves whether the migration is intended to be temporary or permanent. This consideration is central to the role of migrants in both the source and host economies. Although temporary migration seems to be significantly more common in

*Department of Economics, University of Pennsylvania, Philadelphia, PA 19104. This paper has benefited from discussions during seminars at Indiana University, the Institute for International Economic Studies in Stockholm, the International Economics Study Group in London and Pennsylvania State University, and also from both an International Trade Workshop held at the University of Western Ontario in March of 1984 and a Migration Workshop conducted in March 1985 by the Royal Institute of International Affairs and the Centre for Economic Policy Research in London.

[1] In simple factor endowments models international capital mobility is a perfect substitute for international labor mobility; this could limit interest in the explicit consideration of the latter. But, as a referee has pointed out, there are in fact many industries which have an identifiable subsector for labor migration, some like agriculture one in fact that is not internationally mobile and others, such as services, produce nontraded outputs.

See for example Jagdish Bhagwati (1979).

[2] For a more detailed discussion of the implications of conventional trade theory for migration and of the distinguishing characteristics of the latter, see my paper (1984). The three parameters discussed below are not necessarily of significance *only for* labor mobility. As a referee has noted, the temporary or permanent nature of a flow is often important for the implications of capital movements.

Installation & Configuration Guide

With Regulatory, Compliance & Safety Information

OBi202 Quick Start Guide

OBi202 Device

Ethernet Cable

Power Adapter

Step 1 Installation Requirements

Please check to see that you have the following:

1. OBi202 Device
2. Ethernet Cable
3. Power Adapter

You will also need:

1. A touch-tone telephone.
   - This can be an analog or digital model or cordless phone.
2. An active Internet connection.
   - This can be a cable modem or DSL modem connected, port on your router or standalone.
3. Does your service provider require you to manually configure your broadband modem?
   - Does your service provider require you to manually configure your broadband modem?
4. (Optional but very useful) An Internet phone service subscription with all required username and password credentials.

Step 2 OBi202 Installation

Please complete the following steps in order!

A. Connect one end of the supplied phone cable to your analog telephone. Connect the other end to the jack labeled **PHONE 1** on the OBi202.

B. Connect one end of the Ethernet cable to the jack labeled **INTERNET** on the OBi202. Connect the other end to an Ethernet port on your router or to the Ethernet jack provided by your broadband modem.

C. Connect the power adapter to the OBi202 and plug it into a power outlet.

Provider information was last updated on 02/23/2017

Information contained in this directory is updated six days per week, excluding holidays, Sundays, or interruptions due to system maintenance, upgrades or unplanned outages. This information is subject to change at any time. Providers may delay communicating to Cigna that they no longer accept new patients so we cannot guarantee that each provider is still accepting new patients. Please check with the health care professional before scheduling your appointment or receiving services or call Cigna Customer Service at the toll-free number on your Cigna ID card to confirm he or she is participating in Cigna's network.

Cigna Care Designation
Distinguishes network doctors who practice in one of the specialties reviewed and who meet certain quality and cost-efficiency measures. If you have CCD coverage, "CignaCareNetwork" and the CCD logo will be printed on your Cigna ID card. When you receive covered services from a Cigna Care Designation specialist, you receive the in-network coverage level and your copayments or level of coinsurance may be lower. To qualify for this designation, doctors must be board certified in their specialty and have earned one or more independent ratings. Learn more about Cigna Care Designation at http://www.cigna.com/assets/docs/hcpdirectory/cigna-care-designation.pdf

1 more TESTING

Test Pattern 1.0

This here is some text. We want at least one page of text included in this testing because text is usually what people transmit in a fax – like a contract page with a signature. Don't get me wrong, graphics are fine but text gives us that warm and fuzzy feeling that this testing is rooted in simulating real-world scenarios.

Graphics, on the other hand, allow us to see minute transmission flaws that are easily overlooked in a text message. The brain is a wonderful thing, and can cause us to overlook small missing details. Take, for example, the car company called KIA.

There are other examples of how the brain will fill in missing pieces of characters, or even whole words. I won't bore you with more details. The point is that text is not the best transmission to prove a fax system is working correctly.

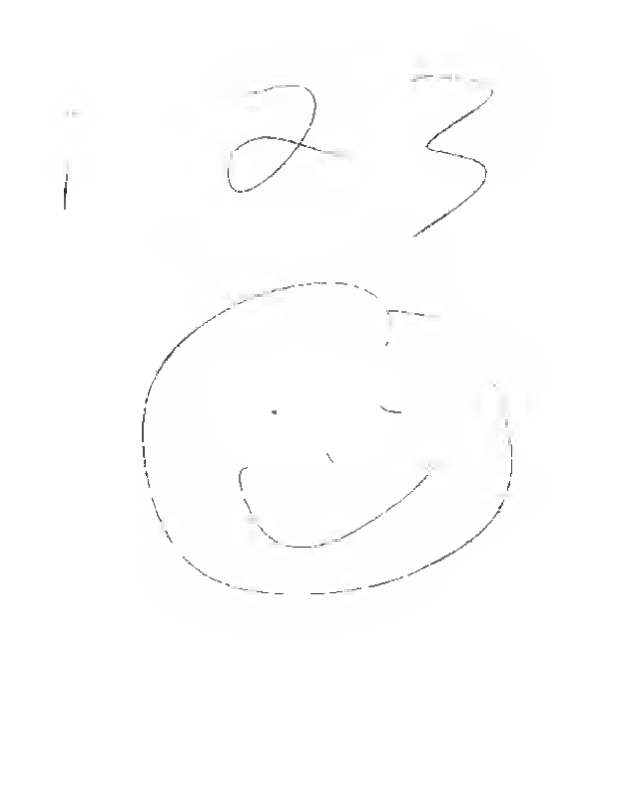
Because the human brain is adept at recognizing patterns, the following pattern pages will easily allow one to detect even a small fax issue.

"**Anigonish**"

As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh how I wish he'd go away



Zombie Emergency Procedures

95% of all known zombies can be stopped by decapitation or destroying the brain. Arm your desperate, improvised weapons at the head and neck.

DO NOT SPLIT UP!
Someone WILL get killed, turn into a zombie and the next person to see them will go "Oh, it's my friend, I'll just turn my back and OH GOD WHY IS HE EATING MY BRAIN?!"

DO NOT USE FIRE
The only thing worse than undead hordes trying to eat your brain is undead hordes trying to eat your brain WHILE ON FIRE.

HEAD CLEANING PAGE

YOU CAN CHECK THE INK FLOW FOR EACH NOZZLE ON THE INK CARTRIDGES
BY CHECKING THE PRINT SAMPLES BELOW.
IF BROKEN LINES STILL APPEAR AT THE BOTTOM OF THE PAGE
THEN PRINT THIS HEAD CLEANING PAGE AGAIN.

RESIDENTIAL DEFERRED PAYMENT AGREEMENT

(If full payment has already been made, please disregard this offer)

Fax to 1-888-877 1655

Payment Agreement Rules and Information

(Active)

Customer Name ANTONY CHAVIS

Account Number 49863 15166

Service Address 1550 E DELAVAN AVE FL 1 BUFFALO NY 14215

Date of Offer 12/5/2012

PLEASE READ THE FOLLOWING CAREFULLY BEFORE YOU SIGN THIS AGREEMENT

1. National Grid is required to offer you a payment agreement that you are able to pay.
2. Normally, payment agreements require that you make a downpayment, pay your current bills on time and make an installment payment each month toward your unpaid balance. If you can show that your present financial circumstances will not allow you to make such payments, we are prepared to enter agreements to offer agreements that do not require a downpayment and with monthly installments as low as $10.00 above your current bill.
3. If a personal or telephone interview takes place we may ask questions regarding your income, expenses and available assets. You would be required to provide such information and if requested, reasonable substantiation that the information provided is complete.
4. Recipients of Public Assistance or Supplemental Security Income (SSI) may wish to consider contacting their local social services office as they may be eligible for utility bill payment assistance.

After reviewing the specific terms of the agreement (stated below) if you feel you are not able to make the required payments—do not sign the agreement. If you have questions or wish to discuss the terms with a National Grid representative call 1-800-443-1837

HOW PAYMENTS WILL BE MADE IF YOU ACCEPT THIS AGREEMENT

As of 12/5/2012, you owe a previous balance of $682.09 and a current bill amount of $108.56 for a total amount owing of $791.65

A downpayment of $68.74 must be made by 12/5/2012, leaving a balance of $622.91

This remaining balance is to be paid in 6 monthly installments as follows: 2 payments of $81.99 and a final (1) payment of $75.91. All installment payments covered by this agreement and all bills you will be receiving for current service charges while the agreement is in effect, must be paid by the due dates shown on the bills.

WHAT HAPPENS IF YOU DO NOT MAKE THE PAYMENTS

If you do not make any payment required by the terms of the agreement, we may insist upon full payment of all monies owed to us and take steps to shut-off service unless, the reason for not making payment is that your financial circumstances (income and expenses) have changed significantly due to conditions you could not control.

You may be eligible for a new agreement if you tell us exactly what has taken place and can show that the reasons for not making payment were truly due to conditions beyond you control

ASSISTANCE

If you wish to speak with a National Grid representative please call us at **1-800-443-1837**. If further help is needed you may call the **New York State Public Service Commission** at 1-800-342-3377, 8:30 A.M. to 4:30 P.M. Monday through Friday.

BUDGET BILLING OPT ON

If you wish to enroll in the budget billing (Help Plan) place a check mark on the line below and we will start you on the plan. The Budget Billing Plan allows you to pay the total amount of your normal service charges in twelve (12) nearly equal monthly payments. This plan pertains only to new bills you will be receiving and does not change the specific terms of the payment agreement.

_____ Yes, I would like to be put on the Budget Billing Plan

Welcome to

Windows® Fax and Scan

One place for all your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

required by the service provider could be applied only to this trunk and not affect other enterprise traffic. In addition, this trunk carried both inbound and outbound traffic.

For inbound calls, the calls flow from the service provider to the Session Border Controller then to Communication Manager. Communication Manager uses the configured dial patterns and routing policies to determine the recipient and any further incoming call treatment, such as incoming digit translations and class of service restrictions may be performed.

Outbound calls to the PSTN are first processed by Communication Manager and may be subject to outbound features such as automatic route selection, digit manipulation and class of service restrictions. Once Communication Manager selects the proper SIP trunk, the call is routed to Session Border Controller. The Session Border Controller forwards the call to Qwest SIP Trunk.

e-file makes doing your taxes faster and easier.

freefile is the fast, safe, and free way to prepare and e-file your taxes. See www.irs.gov/freefile.

Use a faster, more convenient, and secure paper. For more information, go to IRS.gov/directfile. Free file software and filing your return is free. Learn more at IRS.gov/freefile.

NEW FORMS

You may have to report your capital gains and losses on new Form 8949, Sales and Other Dispositions of Capital Assets. You may have to file new Form 8960.

MAILING YOUR RETURN

If you file a paper return, you may be mailing the settlement address this year.

FUTURE DEVELOPMENTS

The IRS has created a page on IRS.gov for information about Form 1040 and its instructions. Go to IRS.gov/form1040 for more about any future developments affecting Form 1040 (such as legislation enacted after we release it).

For details on these and other changes, see the items listed under *What's New*.

Steve Beshear
Governor
700 Capitol Avenue, Suite 100
Frankfort, KY 40601

Dear Governor Steve Beshear

I am writing in regards to Larry Young. I am looking to ask you to grant civil rights back to this individual.

Firstly I would like to personally thank you for being a man who believes in critical public safety programs and a man that honors our veterans and recognizes their sacrifices.

Larry Young was convicted for a crime that I personally and morally consider self-defense. In this charge, there were no firearms involved with the charges placed on this individual. To my knowledge and research, I learned that Larry Young was only trying to escape in an automobile which was deemed as the weapon involved. The firearm was in custody of the other individual. Being an honest man which I realize you are a man of honesty he plead guilty and accepted the felony charge in which the court system probated for 5 years.

However during his probated time he was placed in the Monroe County Correctional Center on August 23rd 2005. The cause of this was solely based on a firearm that his ex wife had hidden under lock and key. Larry Young was unaware of the firearm as it was not inside the house, but in a shed on the same property as the house. He served time in jail until December of 2005

Larry Young has, since then failed to be charged with any sort of harmful felony crimes, totaling 8 years since his last offense. No rights have been granted back to Larry Young

As an honest person, he has been forced to sacrifice a well-loved hobby due to those charges in the past. I believe he should be able to hunt again not only for a hobby, but for food, as you know times are hard. I feel that since he has served his time and became a person with no further charges or crimes he should be awarded his rights back

Therefore, I am asking you to grant Larry Young's gun privileges back. I appreciate and honor the ability to write you this letter and I am greatly seeking a response of some kind regarding the matter presented.

Thank you for your time

Sincerely

Adrienne Nicole Dyer

V – LES POLITIQUES DE L'EMPLOI

A. Les principales distinctions à la politique de l'emploi

Deux séries de politiques de l'emploi sont possibles :

– Les instruments qui visent à l'offre de travail : la population active (horaires de la scolarité, âge de la retraite, etc.), la formation professionnelle.
– Les instruments qui agissent sur la demande de travail : le coût du travail (réductions des charges sociales, subventions à l'emploi, etc.), la flexibilité du travail (**CDD**, travail à temps partiel, intérim, etc.), la durée du travail (réduction du travail, aménagement du temps, etc.).

Un grand nombre d'actions visant à réduire le chômage sont possibles. Elles se répartissent toutefois en deux grandes catégories.

B. Les politiques actives

Les actions de l'État visant à lutter contre le chômage peuvent être qualifiées d'actives :

– politiques visant à réduire le coût du travail : baisse des cotisations sociales employeur, allégement de la fiscalité sur le travail par qualification, individualisation des rémunérations, etc. ;
– politiques visant à enrichir la croissance en emplois par le développement des activités à faible productivité ;
– politiques visant à soutenir l'activité par stimulation de la demande globale (baisse des impôts, politique fiscale, aide à la création d'entreprise, auto-entrepreneur etc.) ou publics (politique de déficit budgétaire, développement des dépenses d'infrastructure, etc.),

Particulier le rôle joué par les consommateurs, puisque ceux-ci en représente la majeure composante de la demande globale : **soutien du pouvoir d'achat, baisse de la pression fiscale, aides sociales et transferts sociaux** sont alors les principaux leviers d'action visant à relancer l'activité et à **inciter les firmes à embaucher ;**

– politiques visant à partager le travail : Des politiques consistent en une baisse de la durée légale du travail. L'idée étant que, si chacun travaille individuellement moins, il y aura collectivement plus de travail pour l'ensemble de la population active. En France, la loi Aubry sur les 35 heures est la plus représentant ve de cette volonté.
– politiques visant à améliorer l'adéquation entre l'offre et la demande de travail : **Formation des agents, développement de leur polyvalence, amélioration des traitements d'information par les agences d'emploi, Aimant de mesures visant à avoir une demande plus en adéquation avec l'offre exprimée.**

C. La politique passive

Il s'agit ici d'analyser le rôle des allocations sur les conséquences du chômage.

Elles ont traitent essentiellement dans :

– L'indemnisation du chômage : **régime de l'assurance sociales (allocations pour les chômeurs de longue durée atteint en fin de droit),**
– L'indemnisation du retrait d'activité (préretraite et cessation anticipée).

Au delà du traitement des conséquences sociales du chômage, deux aspects ont aussi été soulignés : la croissance potentielle et la croissance [illegible] économique.

Mais la question de la relation des deux est parfois ambiguë et n'est pas [illegible].

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Send/Receive Test

1 Load the paper into the fax machine following the manufacturer's instructions

2 Dial "1-888-473-2963" on the fax machine and press "Send" or "Start " depending on your fax machine

3 Wait for the fax to finish transmitting

You will receive a return fax from HP within five to seven minutes of completion. If the fax is received then your machine is setup properly. If you do not receive the fax, then there is a problem with its configuration

General Wainwright Lands Merchant Marine

General Johnathan Wainwright either inspecting his son's ship, the Lakeland Victory, in San Francisco Harbor said "I am proud that my son, Commande- Wainwright of the U S. Maritime Service is part of this great American Merchant Marine. The youth of the nation and the training they are given are for service in the Merchant Marine will greatly affect the post-war economy of the United States. The winning of the war depended upon the amount of supplies that were delivered by this great fleet to every Pacific base and beachhead." Commander Johnathan Wainwright is holder of the Merchant Marine distinguished service medal for heroic action at Solomon Is aspirant of the Lakeland Victory, recently commissioned in San Francisco Harbor.

HIGHEST W. W. II CASUALTIES

Members of the U. S. Merchant Marine serving aboard U S cargo ships and tankers during W. W. II suffered a greater percentage of casualties than did the nations regular armed forces combined.

STUDENT, STAFF CO-OPERATION SPEEDS RADIO TRAINING

Shortly after noon last Wednesday 16 May, George Bucaha, 18, of East Rutherford New Jersey passed he FCC examination thereby earning a Second Class Radio Operator's License. The thousandth Radio Trainee to graduate from the station. Bucaha answered every average in his marks in a typical student who plans to make Radio a permanent career. Behind the 1,000th Radio School Graduate lies a record of patient and loyal achievement on the part of the Superintendent Captain Harry Manning Train ng Officer Lt. Cmndr. R. H. Wilson, and the entire staff, in the Code Theory Laboratory and Procedure Departments. Since the inception of Radio Training at Hoffmen Island on June 2 1944 the instructors have consistently striven to improve the efficiency of their teaching methods. Faced with the problem of condensing a year's training into twenty weeks, they have hurdled many obstacles, proceeding by trial and error towards greater efficiency. As an example, exhaust ve analysis of comprehensive tests frequently shows where major problems may be simplified. Pamphlets on these problems are then mimeographed for immediate distribution to the students.

The direct results of the i efforts are reflected in the graduating figures which show a high percentage of graduates with 2nd class licenses. Incidentally Bucaha was e bit nervous when the Superintendent personally presented him with his certificate, however the Skipper s interested Radio Operator handoff quickly managed to put George at ease. The interviewed Bucaha was put e bit preoccupied in the usual manner of Radio stu Intelligent and well mannered his c nversty and belief in the service like that of his tes, is the best indication of a proud future for the American Merchant Marine

NAVY'S WARTIME SHIP COMMUNICATION COURSE CERTIFIES 1,000th MAN

Presented with his Navy Cert fi ate of Efficiency, Bucaha, also be ame the thousandth graduate of the U. S. Navy's Wartime Communication Train ng Course, his serial number for enrollment was 1,000. The importance of this phase of training given to all graduates of the Radio Training School has been summed up by Admiral Land "Full knowledge of wart ime methods and communications is essential to protect Us and property on the high seas, and to assure safe arrival of our war convoys"

A veteran of the Sicily and Salerno Invasions Lieut. M. H. Blum, USNR, who has served in Atlantic and Mediterranean Convoy duty conducts the course.

GOV. MALLOY ANNOUNCES FUNDS TO SUPPORT AFFORDABLE HOUSING THROUGHOUT THE STATE

HARTFORD, CT – Governor Dannel P. Malloy, Department of Economic and Community Development Commissioner Catherine Smith and Connecticut Housing Finance Authority (CHFA) President and Executive Director Tim Sullivan today announced the availability of over $25 million in affordable housing program resources under the Competitive Housing Assistance for Multifamily Properties (CHAMP) initiative. The release of funds was scheduled this week at the Colonial Arms Apartments in Hartford.

"In the years since, we've created more than 8,000 rental units to help municipalities address one of their most pressing needs – the lack of affordable housing options for their workforce," said Governor Malloy. "We are doing more to support local efforts to create and preserve affordable housing units that will help attract employers and strengthen communities. And when we do this across the state, we free entrepreneurs the quality of life to grow Connecticut. At the same time, these projects will help to create over $22 million in federal tax credit equity through the CHFA Low Income Housing Tax Credit (LIHTC) program administered by CHFA."

The projects are projected to help create approximately 300 construction and permanent jobs statewide. In addition over $21 million in state grants and $2.5 million in federal 4% LIHTC credits and $0.9 million in CHFA tax-exempt bond financing, CHAMP is also scheduled to leverage $1.3 million in federal HOME funds and $1.1 million in Capital Magnet Fund dollars. The HOME funds will help to expand or retain affordable units and support the following:

"The investments the Governor is announcing today will leverage nearly three times the amount of CHAMP funding. The total investment cost of the projects, with the majority coming from private investment, is expected to be over $100 million," said Commissioner Smith. "Even with a slow start of CHFA's Board of Directors. It is through these creative partnerships and financing models such that we are finding innovative ways to extend many new dollars and maximize the impact of our housing programs."

CHFA administers the 4%/9% LIHTC program, which is a federal tax credit program designed to stimulate private investment in the affordable housing. Under the program, developers can obtain equity funding to acquire, construct, and/or rehabilitate new or existing rental housing. The allocation of federal tax credit authority is competitive, requiring applications of interested parties.

"The LIHTC program is a critical tool for affordable housing and is important source of gap funding for developers," said Chairman

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Switch off the machine and unplug power adapter from device and from wall outlet. Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device. Bypass all any joins along the way.
- If using an All-In-One device, temporarily disconnect device from PC.

Further Assistance

If you need further assistance using your Vonage Fax Service, we're a wide variety of ways to help.

In addition to the monthly cost of the service and any selected features, AT&T imposes the following types of charges and credits on most bills. Some of these charges, such as Regulatory Cost Recovery Charge, Federal Universal Service Fund, and Administrative Fee, are set by AT&T. Other charges, such as government assessments, are set by federal, state and local governments. Certain charges are based on the number of lines assigned to your account. Other charges, such as Activation Fee, Upgrade Fee, Early Termination Fee, and Lost Equipment Charge, are assessed on your account when you activate, upgrade or terminate service. Above charges do not include taxes. Taxes are calculated on your monthly service charges, usage charges, and other charges. To prevent your service from being disconnected for non-payment, AT&T may apply payments to past due balances before current charges. For more information about taxes, fees and charges, please visit www.att.com/myatt/wireless/taxesandfees.html. To request a paper copy of this information, please call 611 from your wireless phone or 1-800-331-0500.

YOW!
I AM HAVING FUN

BRDKEDOWN PALACE

Fare you well, my honey, fare you well my only true one.
All the birds that were singing are flown, except you alone.

I'm Going to leave this brokedown palace,
On my hands and my knees, I will roll, roll, roll.
Make myself a bed by the waterside,
In my time,in my time, I will roll, roll, roll.

In a bed, In a bed, by the waterside I will lay my head.
Listen to the river sing sweet songs, to rock my soul.

River going to take me, sing sweet and sleepy,
sing me sweet and sleepy all the way back home.
It's a far gone lullaby, sung many years ago.
Mama, mama many worlds I've come since I first left home.

Goin' home, goin' home, by the waterside I will rest my bones,
Listen to the river sing sweet songs, to rock my soul.

Going to plant a weeping willow,
By the bank's green edge it will grow, grow, grow.
Sing a lullaby beside the water,
Lovers come and go, the river roll, roll, roll.

Fare you well, fare you well, I love you more than words can tell,
Listen to the river sing sweet songs, to rock my soul.

Day for Night

Those 3 Words We Love to Hear, Day for Night (DFN) What better three words could a director ask to hear? No huge generators, no freezing temperatures, no vampire-style living... what's not to love?

Are you perplexed? Well long ago, back in the days of black-and white film (yes, both black and white *and* film), way back then directors didn't have the equipment or the money to light up large outdoor scenes, so they devised a way to trick the audience by shooting night scenes during the day. Those old directors loved a rather simple technique of darkening the scene and changing the contrast, and eventually the color. I bet that after following these few easy tips, you will fall in love with it too.

Get Close

First, never shoot the sky. The sky is completely dark at night and light during the day. In order to achieve the effect and trick your audience, you must not see the sky. Pick your backgrounds carefully, and move in closer. Maybe a heavily wooded area or a city alleyway might work. Any place the sky is covered or not visible works best. If you must see the sky, your only option is to use filters. A graduated neutral density (ND) filter used in conjunction with a composition consisting of a strong horizontal line, like a skyline or horizon, can help sell the effect. Position the filter so it just touches that horizontal line to hide the edge of the graduation. However, beware: you won't want your subject to cross into the bottom of the graduation, because

Tips for Effective Study

The most common barrier to success encountered by college students is a lack of effective techniques for study and exam preparation. If you are one of the vast majority of students whose answer to the question, "How do you study for your tests?" is, "I go over my notes," then you need to take a serious look at your study skills. Here are some suggestions to increase your effectiveness as a student.

I. **Day to Day**

A. ***Take good notes.*** Very few students leave high school with this skill. Some suggestions and observations:

1. Always take the notes for a particular class in the same notebook. Spiral bound notebooks were invented because they solved the problem of keeping related information consolidated in one place. Take advantage of this.

2. ***Date*** each entry into your notebook.

3. It is usually best to keep the notes for different classes separate from each other. Spiral notebooks with built in dividers are excellent for this purpose.

4. Your notes should contain as complete a record of what the instructor said as possible. Of course, you should not try to write every word spoken, but don't leave out ideas. When you study, your notes should call back to your mind the entire sequence of ideas presented. Take care to spell all new words carefully. If you don't know how to spell a word, ask your instructor to write it on the board. Most will automatically do so for new or difficult terms.

5. Anything the instructor writes on the board should appear in your notes. If the instructor took the time to write it out, he or she considers it important. You should do the same.

6. If possible, try to take your notes in some kind of outline form. The organization of ideas is as important as the content of those ideas, especially when it comes to learning the material for an exam.

7. You might find it useful to have a second color of pen or pencil available for highlighting important ideas or indicating vocabulary.

B. ***Be involved in your classes.*** Don't simply pretend you are a sponge, ready to soak up whatever the instructor says. You are there to ***learn***, not to be taught.

Subject: 110 Grill Haverhill - Temp Fence Rental
Attachments: IMG_2730.jpg

Hi Steve,

As discussed a few minutes ago, we received the attached invoice for the temp fence rental at 110 Grill Haverhill for the next 6 months. However, we anticipate only needing the fence through the end of June.

We would like to billed on a monthly basis for the remainder of rental going forward.

Unless I hear otherwise, I will disregard this invoice and look for a new invoice for May's rental only.

Thanks,

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-888-877 1655 (a toll free number in the United States) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

TESTS AND PROCEDURES

Laboratory

Prothrombin Time / INR
Vancomycin Trough

X-RAYS and LAB TESTS:
If you had x-rays today, they were read by the Emergency Physician. Your x-rays will also be read by a Radiologist within 24 hours. If you had a culture done it will take 24 to 72 hours to get the results. If there is a change in the x-ray diagnosis or a positive culture, we will contact you. Please verify your current phone number prior to discharge at the check-out desk.

MEDICATIONS:
If you received a prescription for medication(s) today, it is important that when you fill this you let the pharmacist know all the other medications that you are on and any allergies you might have. Information on indications and side effects has been discussed. It is also important that you notify your follow-up physician of all your medications including the prescriptions you may receive today.

MS+

MANDARIN SKIN PLUS

THE NATURAL SOLUTION FOR LIFELONG GUT HEALTH.
RELIEVE. REPAIR. RESTORE.

NEW AT **Rexall**

VISIT MSPLUS.CA for more info

SYMPTOMS TREATED

GLUTEN SENSITIVITY | DIARRHEA | BLOATING | ACID INDIGESTION | NAUSEA | VOMITING | UPSET STOMACH

DOSAGE & EFFICACY

MS+™ users can experience relief in as little as a few hours for mild gastrointestinal discomfort, while alleviation of chronic symptoms can take up to 10 days. The normal dosage is 1 capsule taken orally twice a day – though some users find optimal relief increasing this dosage, not to exceed 6 capsules a day.

ARE YOU BEING ASKED ABOUT LEAKY GUT?

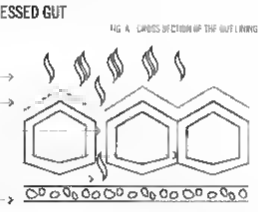
Leaky gut is a term gaining significance in the medical community, defined as intestinal hyper-permeability caused by stressors at the gut lining—diet, lifestyle and genetics can all contribute.

RECOMMEND MS+™ TO PATIENTS.

With chronic gastrointestinal issues suffering and/or an irritable bowel
Wanting an effective alternative or compliment to probiotics
Desiring a natural treatment that provides more than a temporary fix
Seeking relief, repair and long-term restoration of gut health

HOW MS+™ HEALS STRESSED GUT

FIG A. CROSS SECTION OF THE GUT LINING



HOW TO TAKE MS+

IDEALLY BEFORE OR AFTER A MEAL OR WHENEVER DISCOMFORT STRIKES

Swallow one capsule directly

OR

Open the capsule and empty the powder into a bottle of cold water and shake until dissolved, or stir powder into some warm water.
DRINK ONCE EMPTY. ALSO GREAT IN SMOOTHIES.

HOW DOES IT WORK?

- Acts as a powerful antiox dant
- Decreases inflammation of the immune system
- Actively repairs gut lining "tight junctions"

The human gut lining can be damaged by gluten, alcohol, and other stressors. As a result, the junctions between the cells become "leaky." Toxins, undigested food particles, and other irritants can now leak through the gut lining into the bloodstream. The immune system reacts with inflammation, causing pain and discomfort.

MS+™ rebuilds the infrastructure of the gut from the ground up, to welcome back the good bacteria and restore normal gut health. MS+™ is a comprehensive solution for a stressed gut. While many products can offer some relief, the effects may be temporary, or not all symptoms are addressed due to the product acting in only one small region of the digestive tract (i.e. probiotics, digestive enzymes).

A CLEAN AND EASY SOLUTION

Medicinal Ingredient: 97% *Citrus reticulata* pericarp extract (2:1)
Not contraindicated with any other medications
Alkaline: does not cause irritation in those who are sensitive to the acidity in citrus products

Welcome

Dear Valued Customer

Welcome to the New Frontier

It's time to connect you to the world of **Frontier High-Speed Internet**. Always-on, always fast and always secure. You can begin connecting right away.

Get Ready

Please verify that your kit contains the following items:

- Quick Start Guide
- Modem/modem/wireless router (with phone cord, cable(s) and power supply)
- Ethernet (network) cable (you'll use it to complete activation)

Please watch for your Service Ready Date before beginning your installation. We will contact you by phone and/or e-mail to schedule your Professional Self-Installation. Check the status of your order visit **www.Frontier.com/NC/whatsnext**.

Install

Use the Quick Start Guide. Its easy, step-by-step instructions will show you how to install the filters and modem so you can complete the online activation set up process.

Got a question? Talk with U.S.-based tech support anytime, 24/7 at **1.877.462.1105** or online at **Frontier.com/NC/help**. At Frontier, we're ready to talk you through any issues.

Surf

Once you're online, you will find your included connect speeds, download and never shared. Visit your Frontier Central homepage at **Frontier.com/NC/central** to learn about the big perks of your new Frontier High Speed Internet service. Learn how to set up your email, set up a home network and find helpful tips about security features.

Remember to check your Frontier e-Mail mailbox regularly for important messages, including information about your Frontier bill. Billing will begin on the date we notify you that your service is ready to use, falls one month in advance, so your first bill will include charges for the partial first month of service in addition to the full second month of service. Your bill may also include a one-time shipping and activation fee and charges for any optional equipment you order or lease.

Thanks for listening. We promise that if you have any comments or concerns, we'll listen, too. After all, it's what customer service is all about.

Sincerely,

Frontier High Speed Internet

Worst Analogies Ever Written In A High School Essay

1. She caught your eye like one of those pointy hook latches that used to dangle from screen doors and would fly up whenever you banged the door open again.

2. The little boat gently drifted across the pond exactly the way a bowling ball wouldn't.

3. McBride fell 12 stories, hitting the pavement like a Hefty Bag filled with vegetable soup.

4. From the attic came an unearthly howl. The whole scene had an eerie, surreal quality, like when you're on vacation in another city and "Jeopardy" comes on at 7 P.M. instead of 7:30.

5. Her hair glistened in the rain like nose hair after a sneeze.

6. His thoughts tumbled in his head, making and breaking alliances like underpants in a dryer without Cling Free.

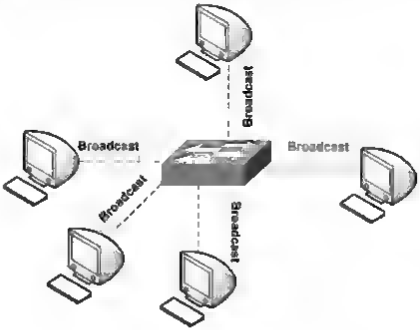
I can vouch for #1, especially when it comes to certification studies. If you just recently finished your CCNA, a great deal of the information in this section will seem very familiar; if it's been a while, it's likely you've lost some of the details -- the details you need to know to pass the SWITCH exam the first time around.

Even if you did recently get your CCNA and you feel comfortable with VLANs, don't skip this section. There's plenty of information here that wasn't in your CCNA studies, but must be part of your CCNP studies.

We'll start with a review of the VLAN basics, and there's nothing more basic than this question: "If Virtual LANs are so great, what's wrong with our good old physical LANs?"

Good question. Here's a good answer! (You know from previous studies that the symbol in the center of the following diagram is a switch - Cisco might tell you that on exam day, and again they might not.)



One common reason for creating VLANs is to prevent the excess traffic caused by a switch's default behavior when it receives a broadcast. One

Every order is thoroughly reviewed by our processing department to ensure that the order is accurate, the payment method is valid, and the purchaser is authorized to use this payment method. Once the order has passed the rigorous review by our processing department, it is sent to our warehouse for shipment. Most orders are processed within minutes however, depending on when an order is placed and the accuracy of the information supplied when the order is placed, processing can take longer. Further, for security reasons, in some circumstances verification may be required before we can process your order.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts software, and operating systems. Fonts and graphics are not lost due to platform, software and version incompatibilities
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

You can easily change the formatting of selected text in the document text by choosing a look for the selected text from the Quick Styles gallery on the Home tab. You can also format text directly by using the other controls on the Home tab. Most controls offer a choice of using the look from the current theme or using a format that you specify directly.

To change the overall look of your document, choose new Theme elements on the Page Layout tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style Set command. Both the Themes gallery and the Quick Styles gallery provide reset commands so that you can always restore the look of your document to the original contained in your current template. The bidding:

WEST	NORTH	EAST	SOUTH
1♡	1NT	Pass	1♠
2♡	2♠	3♡	3♠
4♡	4♠	Pass	Pass
Pass			

Opening lead: Ace of ♡

When Ina'd if you see dummy put down 150 honors in the trump suit and have a side-suit ace as well? It happened in the semifinal of the von Zedtwitz Life Masters Pairs at the recent ACBL Summer North American Championships in Philadelphia.

Sitting North on this deal was Mark Itkoshi from Murrieta, Calif. He decided his hand was too good for any pre-emptive action so elected to make a takeout double and was pleasantly surprised to hear his partner respond in spades. Now that, depending on the scoring method, one spades by North might go down.

West led the ♡A and switched to the ♢K, continued the suit to his partner's king. The stuff was to the nine of diamonds, taken in dummy with the ace. Next came six rounds of trumps ending in this position:

♠ —	♠ 3
♡ —	♡ 7
♢ K 8	♢ Q 5
♣ K 10	♣ 7
♠ —	♠ —
♡ 6	♡ —
♢ 6	♢ —
♣ 7	♣ 9

Now dummy's two of trumps is ruffed declarer parting with his low diamond and West is rousted in the table he parted with the eight of diamonds and he was tucked in with the nine, to lead away from the king of clubs into declarer's combined club tenace.

A Real Man

A real man is a woman's best friend. He will never stand her up and never let her down. He will reassure her when she feels insecure and comfort her after a bad day.

He will inspire her to do things she never thought she could do; to live without fear and forget regret. He will enable her to express her deepest emotions and give in to her most intimate desires. He will make sure she always feels as though she's the most beautiful woman in the room and will enable her to be the most confident — sexy, seductive and invincible.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the *send* functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the *receive* functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Anomaly in the Northeast

Researchers for the Massachusetts Turnpike Authority found over 200 dead crows near greater Boston recently, and there was concern that they may have died from Avian Flu.
A Bird Pathologist examined the remains of all the crows and to everyone's relief confirmed the problem was definitely NOT Avian Flu. The cause of death appeared to be vehicular impacts. However, during the detailed analysis it was noted that varying colors of paints appeared on the bird's beaks and claws. By analyzing these paint residues it was determined that 98% of the crows had been killed by impact with trucks, while only 2% were killed by an impact with a car.
MTA then hired an Ora Biological Behaviorist to determine if there was a cause for the disproportionate percentages of truck kills versus car kills. He very quickly concluded the cause.
When crows eat road kill, they always have a look-out crow in a nearby tree to warn of impending danger.
They discovered that while all the lookout crows could shout "Car," not a single one could shout "Truck."

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off the machine and unplug power adapter from device and from wall outlet. Do not unplug for at least 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- Turning on Auto-Fax device. Temporarily disconnect device from PC.

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device
- Eliminate any splitters between the fax machine and the Vonage device
- Connect Fax machine directly to the Vonage device, bypassing any home wiring
- If using an All-in-One device, temporarily disconnect device from PC

Title:

I am using Voice Over Internet Protocol (VoIP) and cannot send and/or receive faxes. What can I do?

Description

Voice Over Internet Protocol (VoIP) is not a marketed feature of your Brother machine; however there is a "Compatibility" setting available with this machine that may assist with sending and receiving faxes when using VoIP (Voice Over Internet Protocol). Adjusting this setting lowers the baud rate (modem speed) and turns ECM (Error Correction Mode) Off. To adjust the "Compatibility" setting follow the steps listed below:

1. Press **Menu** or **Menu/Set** key, **Fax**, **Miscellaneous** and **Compatibility**
2. Press the up or down arrow key to select **Basic**.

Basic reduces the modem speed to 9600 bps.

3. Press **OK** or **Menu/Set** or **Set** key
4. Press **Stop/Exit**.

Although VoIP is not a marketed feature of this machine, Brother will continue to monitor customer requests for possible future products.

The Apostrophe

Summary: This handout provides rules and examples for apostrophe usage

Contributors: Purdue OWL
Last Edited: 2013-02-22 07:53:18

The apostrophe has three uses.

1. To form possessives of nouns
2. To show the omission of letters
3. To indicate certain plurals of lowercase letters

Forming Possessives of Nouns

To see if you need to make a possessive, turn the phrase around and make it an "of the ___" phrase. For example:

the boy's hat = the hat of the boy
three days' journey = journey of three days

If the noun after "of" is a building, an object, or a piece of furniture, there no apostrophe is needed!

room of the hotel = hotel room
door of the car = car door
leg of the table = table leg

Once you've determined whether you need to make a possessive, follow these rules to create one:

- **add 's to the singular form of the word (even if it ends in -s)**

  the owner's car
  James's hat (James' hat is also acceptable. For plural proper nouns that are possessive, use an apostrophe after the s: "The Eggleses' presentation was good." The Eggleses are a husband and wife consultant team.)

- **add 's to the plural forms that do not end in -s**

  the children's game
  the geese's honking

- **add ' to the end of plural nouns that end in -s**

Results

EGFR Mutations DETECTED T790M and L858R and Del19 mutations

Supporting Data

Mutation	Result	Total EGFR Copies Detected per ml	Mutant Copies Detected per ml	Percent Mutant Allele
T790M	Detected	488.19	11326	3.831% mutation frequency of T790M over EGFR wild-type
L858R	Detected	42.29	11829	0.193% mutation frequency of L858R over EGFR wild-type
Del19	Detected	8175	11749	4.771% mutation frequency of Del19 over EGFR wild-type

Plasma Volume Used: 4 ml

This Target Selector™ assay analyzes for the presence of Del19 and L858R activating mutations associated with response to targeted EGFR tyrosine kinase inhibitors as well as the T790M point mutation associated with resistance to these therapies

Method: Target Selector™ by Biocept

Positive and negative controls were run and reacted in an appropriate manner. The EGFR Mutation assay is a quantitative Real-Time PCR based mutant enrichment assay with selective blocking of EGFR wild-type amplification. The amplification products are purified and subject to sequencing to confirm the presence of the EGFR mutation. This assay analyzes for the following EGFR mutations: del 19, L858R, and T790M. The assay has a specificity >98% and sensitivity >95% at 0.05% mutant allele frequency

- **Coconut oil.** This is a wonderful overall addition to your diet and has anti-inflammatory effects that may help heal injury to your digestive tract [39] Coconut oil also has antimicrobial properties that may kill microorganisms, including yeast that may cause chronic inflammation

- **Caprylic acid.** This is a medium-chain triglyceride (MCT oil) that is also a potent antifungal. Dr Leen Chaitow author of "Candida Albicans: Could Yeast Be Your Problem?" recommends it in lieu of antifungal drugs for Candida overgrowth.

- **Animal-based omega-3** This is another essential element for preventing and controlling IBD The omega-3 fats in krill oil, EPA and DHA, have immune-boosting qualities along with anti-inflammatory properties proven to benefit disorders of the gut, including Crohn's disease and UC [40]

- **Fiber-rich foods.** Fiber foods such as organic psyllium seed husk, flax, hemp and berries vegetables such as broccoli and Brussels sprouts root vegetables and tubers raw nuts and beans help nourish beneficial microbes in your gut.

  Aim for 50 grams of fiber per 1 000 calories consumed. Supplementing with organic psyllium husk can help bring you closer to this ideal amount. Just make sure that the psyllium is organic, as non-organic psyllium is typically severely contaminated with pesticides

Re: Annual Agent Meeting

Dear Property Tax Consultant or Company Representative:

The Harris County Appraisal District has scheduled its annual meeting with property tax consultants and company representatives for 9:00 a.m. on Thursday, March 23, 2017. The meeting will be held in our 6th floor training facility at 13013 Northwest Freeway, Houston.

The agenda will include a discussion of rendition requirements, review of value trends for 2017, options for filing protests and an overview of procedures for scheduling and conducting hearings. Valuable updates will be provided regarding the ARB hearing process as well as HCAD's informal procedures for 2017. Since these and other topics directly affect your operations, I strongly urge your participation.

We look forward to seeing you on Thursday, March 23, 2017.

Sincerely,

Roland Altinger
Chief Appraiser

Thank you for beta-testing MakeMKV. Please see viewtopic.php?f=5&t=1054 for information about latest version.

The linux release includes full source code for MakeMKV GUI, libmakemkv multiplexer library and libdriveio MMC drive interrogation library. Please use this forum for an up to date download and setup instructions. You need to follow the steps outlined below to compile and install the application and all libraries.
Download both binary and source packages
http://www.makemkv.com/download/makemkv-bin.tar.gz
http://www.makemkv.com/download/makemkv-oss.tar.gz

Make sure you have all required tools and libraries installed. You'll need GNU compiler and linker and header and library files for following libraries: glibc, openssl-0.9.8, zlib, qt4. You may use the following command to install all prerequisites on debian-based system like ubuntu.
Code:
sudo apt-get install build-essential libcf-dev libssl-dev libgl1-mesa-dev libqt4-dev

Unpack both packages and starting from source package do the following steps for each package
Code:
make -f makefile.linux
sudo make -f makefile.linux install

The application will be installed as "/usr/bin/makemkv"

Please share your experience in this forum.

Dildo-Wielding Woman Accused in Assault

Police: She Hit a Cop With Sex Toy

When most women break out the dildos, it's either party time or one of those sex-toy Tupperware parties.

PreviousNext

Carolee Baldsten Mug Shot 2010

Gurnee (Illinois) Police Department

But police in Gurnee, Illinois say one woman wielded her dong in anger — and not just in a mean-spirited masturbation session.

Joe's Crab Shack, a local restaurant, called the cops to complain about a woman who had skipped out on a meal without paying. The restaurant said it was the second time the woman had done so.

A cop found a woman matching the description lying in the grass near a Six Flags amusement park and told her she had to pay up, or go to jail.

That's when the story takes a turn for the weird.

As my colleague Ben Muessig writes at AOL News, the woman — 56-year-old Carolee Baldsten — told the cop she didn't have any money, but could get some at home.

When the officer escorted her there, she opened a drawer, pulled out a sex toy and raised it in the air as if to strike.

The cop quickly blocked the, um, toy and placed the woman under arrest.

How To Update the AirWare in Your Spektrum™ Transmitter

Updating your Spektrum transmitter is very simple and only takes a few steps!

1) Download the file SPMTX.SAX by clicking the "Download" or "Update" button
2) Save or copy the file from the PC to the SD card **NOTE**: Do not change the SPMTX.SAX filename or the file will not auto-load into the transmitter (Tx)
3) Right click on the SD icon and select "Eject." This will ensure that the entire file has been correctly written to the card
4) Power up the Tx with the SD card installed
5) You should see the Spektrum logo on the main screen and a progress bar while the new software loads
6) When it completes, in System mode use NEXT several times until you see the Serial Number screen. The version number is displayed on the same screen. Verify the new version number matches the expected version from the download

If you do change the filename in step 2, you can perform a manual update to the code:

1) In the System menu, scroll to the bottom option to enter the SD menus
2) In the Option field, select Firmware Update
3) Select the file with the name you desired. Note: If you are using a Macintosh or other *nix based computer, there may be a file with the same name but having a leading dot (period). Do NOT use the file with the dot, instead scroll further down the list to find the one without the dot and select it, instead
4) Continue from step 4 above

Note: All software files are unique to the serial number registered online and will only work with the matching transmitter. Using a SAX file created from a different account or serial number will fail.

Problems?

The most-commonly reported problem is that the radio will start reading the update, get most of the way done, restart and try again. The usual cause of this is skipping the "Eject" step above. Start over at step 2 (save/copy) again.

If that does not resolve the problem, we suggest using a different SD card, and/or formatting the card and starting again. Sometimes a card will have a flaw that goes undetected until a file is written to it. When formatting, don't use the Quick option.

If you are continuing to have problems, please contact the Product Support group at your nearest Horizon Hobby office for help in resolving it.

List of Disabilities

Do You Qualify As Having a Disability?
The ADA defines "disability" very broadly and does not limit the type of disability for which a service animal can be used. In addition, there is great flexibility with respect to the nature and severity of a person's physical, mental, or emotional issue (disability). The essence of the law states that if you have any condition that makes it difficult to perform or limits an important life activity (that other people can perform easily), you are qualified. You are not required to have a doctor's excuse or formal diagnosis. The life activity might only be a problem during certain times, like dizziness (leading to balance problems), low blood sugar, a seizure, panic attacks, stress, or depression, to name a few examples.

Although we do not encourage exaggerating problems to qualify as disabled. It is clear that you don't have to be blind or deaf to have a disability. Are you diabetic? Then you probably qualify. If your blood sugar level sometimes incapacitates you or makes normal functions difficult. Do you have dizziness or balance problems on occasion? How about difficulty hearing? Click to read the actual ADA definitions.

ADA Definitions of Qualified Disability

Under the ADA, an individual with a disability is a person who:

1. Has a physical or mental impairment that substantially limits one or more major life activities
2. Has a record of such an impairment; or
3. Is regarded as having such an impairment.

A physical impairment is defined by the ADA as:

Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological, musculoskeletal, special sense organs, respiratory (including speech organs), cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine.

A mental impairment is defined by the ADA as:

Any mental or psychological disorder such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

NOTE The ADA does not list all impairments or diseases that make up physical, mental, and emotional impairments, because it would be impossible to provide a comprehensive list given the variety of possible impairments.

Exclusions to the Qualified Disability Definition

Copying Guidelines

Under the Canadian **Copyright Act** individuals may make copies of all or substantial parts of copyright works without the copyright owner's consent. Copyright subsists in **literary, dramatic, musical** and **artistic** works.

The **Copyright Act** allows a **FAIR DEALING** exception that **permits the use of a substantial portion** of a copyright work for the purpose of research, private study, criticism or review, or news reporting. Under these guidelines, you may copy the following for your **research** or **private study**:

---

1. **YOU MAY** use for "Fair Dealing" a Published Work, other than a work normally produced primarily for the educational market, in the following, whichever is greater:
   a) an entire chapter from a book provided that it does not exceed twenty (20) per cent of the book or
   b) one article from a periodical publication, or
   c) one whole short story, play, poem or essay from a book or periodical publication or
   d) an entire entry from an encyclopedia, dictionary, annotated bibliography or similar reference book, or
   e) a reasonable portion from a non-fiction book or periodical publication, or
   f) a single, individual artistic work from a book or periodical publication.

2. In the case of a **commercial textbook** produced primarily for the post-secondary education market, copies may be made of up to ten (10) per cent of the following whichever is greater:
   a) an entire chapter from a textbook provided that it does not exceed ten (10) per cent of the textbook
   b) a reasonable portion of non-fiction work or a single musical score from the textbook provided that it does not exceed ten (10) per cent of the textbook
   c) an entire reproduction of an individual work or a single musical score from the textbook provided that it does not exceed ten (10) per cent of the textbook

3. **You may NOT copy** for fair dealing:
   a) any of the works listed in paragraph **1** to **2** of these guidelines where the publication containing the work does not include other works. For example, no copy may be made of a play from a publication containing the play but no other work;
   b) unpublished works;
   c) cheap, library workbooks, work sheets, assignments, answer books or other materials;
   d) instruction manuals;
   e) newsletters or like restricted circulation literature to be restricted to a few people, clientele; or
   f) daily newspapers other than those specified in paragraph 1 above.

In certain circumstances copies may be made of unpublished works and copies for which these guidelines would not allow under the Copyright Act. Requests for the making of such copies should be directed to the University Copyright Officer at **780 492 9151** for examination. Information will be made available on request regarding the collective licensing agreements that the University of Alberta has entered into with various collective licensing agencies, depending on the circumstances.

The University of Alberta is **not responsible** for copyright infringement by individuals reproducing copyright works at machines installed on campus.

Figure A

Read this information before you start using your ADVAIR DISKUS inhaler:

- Take ADVAIR DISKUS out of the foil pouch just before you use it for the first time. Safely throw away the pouch. The DISKUS will be in the closed position.
- Write the date you opened the foil pouch on the first blank line on the label. **See Figure A.**
- Write the "use by" date on the second blank line on the label. **See Figure A.** That date is 1 month after the date you wrote on the first line.
- The counter should read **60**. If you have a sample (with "Sample" on the back label) or institutional (with "INSTITUTIONAL PACK" on the foil pouch) pack, the counter should read 14.

How to use your ADVAIR Diskus inhaler

Follow these steps every time you use ADVAIR Diskus.

Step 1. Open your ADVAIR DISKUS.

- Hold the DISKUS in your left hand and place the thumb of your right hand on the thumb grip. Push the thumb grip away from you as far as it will go until the mouthpiece shows and snaps into place. **See Figure B.**

Figure B

Step 2. Slide the lever until you hear it click.

- **Hold the DISKUS in a level, flat position** with the mouthpiece towards you. Slide the lever away from the mouthpiece as far as it will go until it **clicks. See Figure C.**

The Lost Dr. Seuss Poem

I Love My Job!

I love my job. I love the pay!
I love it more and more each day.
I love my boss. he is the best!
I love his boss and all the rest.

I love my office and its location. I hate to have to go on vacation.
I love my furniture, drab and grey, and piles of paper that grow each day!
I think my job is really swell. there's nothing else I love so well!
I love to work among my peers, I love their leers, and jeers, and sneers.
I love my computer and its software,
I hug it often though it won't care. I love each program and every file.
I'd love them more if they worked a while.

I'm happy to be here. I am. I am.
I'm the happiest slave of the Firm, I am.
I love this work, I love these chores.
I love the meetings with deadly bores.
I love my job. I'll say it again. I even love those friendly men.
Those friendly men who've come today,
In clean white coats to take me away!!!!

How Can I Test My Fax Machine?

Presumably you want to test your fax machine by faxing a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1 310-545-9996 (A number in Northern California.) When it's finished transmitting, point your web browser to FaxTest -- it's a fax web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring -- hopefully it will automatically answer and spit out the test fax.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software and operating systems. Fonts and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Music Lasts a Lifetime

MENC: The National Association for Music Education

February 3, 2012

Dear 4th Grade Families,

To help celebrate Youth Arts Month and Music In Our Schools Month in March, Ms. Brandleu and I will be hosting the second annual Potowmack Arts Festival on **Thursday, March 8th**. This is an exciting opportunity to see the school turned into an art gallery filled with artwork from every student in grades 1-5. The 4th grade classes will share a performance at **6:15 PM** called "Broadway Beat" – a collection of six renowned Broadway favorites.

As we spend the months of February and early March preparing for our performance, it is helpful to know who will/will not be able to perform for planning purposes. Please return the permission slip by Friday, February 17th.

If you have any questions about this performance, please feel free to contact me. I am looking forward to working with your children on such fun music!

Sincerely,

Mrs. Williams

SCIENCE 708 HUMAN ANATOMY-PART 1

HUMAN BUILDING BLOCKS

In Genesis 2 7-8 the Bible states "Then the LORD God formed man of dust from the ground and breathed into his nostrils the breath of life and man became a living being The LORD God planted a garden toward the east in Eden, and there He placed the man whom He had formed " In this unit you will study one of God's most fascinating creations the human body

THE HUMAN BODY

The human body is made up of billions of cells Cells combine to make up the different systems of the body In this unit you will study the muscles the skin and the skeleton These structures work together to form the framework of the body You will learn also about the brain the spinal cord and the nerves They work together to form the human nervous system

God has given you five senses so that you can truly appreciate the beauty of the world He has created You will enjoy this unit because you will learn about you

The human body is made up of very tiny particles called cells. These cells are so small that they can be seen only with a microscope Though our bodies are made up of different kinds of cells all cells have the same characteristics All cell structure is similar and all cells carry on certain life *functions* Cells work together to form an amazing complexity of tissues organs and life systems

VOCABULARY

DNA	Two strands of molecules twisted together in a cell nucleus containing genes and hereditary information
evolution	The belief that life started and has progressed solely by natural chemical processes
function	The purpose or job
heredity	Qualities of your body that you get (genetically) from your parents
interrelated	Any number of items functions or purposes which are dependent upon each other

Sep-18 2017 9:38AM

The fax detects an active telephone line — **Fail**

An active phone line was not detected

Please check the items below, and then rerun this test

HP recommends using the telephone cord that came with the product

Verify that the fax cord is securely connected between the telephone jack and the product (or another device that is connected to the product)

Disconnect the product from the jack in the wall, and then connect a telephone to the jack. Try to make a voice call to verify that the telephone line is working

Connect the product to a different phone line

Try a different phone cord

Remove any phone line splitters that are in use

Ensure that a filter is installed if using DSL

Instructions on how to rerun this test
Step 1. Press the [Setup] button.
Step 2. Select "Service."
Step 3. Select "Fax Service."
Step 4. Select "Run Fax Test."
